JAMES H. ELLIS

REGIONAL SUPERINTENDENT OF SCHOOLS

OF

VERMILION COUNTY

FOR

FISCAL YEAR

JULY 1, 1982 - JUNE 30, 1983

IN COMPLIANCE WITH

CHAPTER 122, SECTION 3-5

ILLINOIS REVISED STATUTES

To: Members of the Vermilion County Board

It is a pleasure to present for your consideration my Annual Report for the Office of the Regional Superintendent of Schools for Vermilion County for fiscal year beginning July 1, 1982 and ending June 30, 1983. This report complies with Chapter 122, Section 3-5 of the Illinois Revised Statutes.

The report necessarily summarizes considerable information relating to the operations of all schools in Vermilion County. Detailed records in the County Office are available for examination by any interested citizen in the County.

Duties of Regional Superintendent of Schools

The General Assembly has prescribed by law duties and responsibilities of the Regional Superintendent of Schools. The superintendent is required to exercise supervision and control over all the school districts in the county. Basically, this requires seeing that the schools are being operated as required by law. We are committed to the effort that brings into being, advancement that provides enlightenment to a totally literate society and an informed, as well as, active citizen.

The philosophy of this office is to help in all ways possible, the local superintendents, principals, teachers, parents, non-certified school personnel, and boards of education to do a better job in providing sound educational opportunities for all children of this County. We try to give leadership without usurping local districts' autonomy and authority.

State Visitation of Schools

Seven school systems had state visitations by the Illinois State Board of Education; two had vocational visitations; two had North Central evaluations; fifteen had a federal funds program evaluation.

Fourteen school districts in Vermilion County are fully recognized as of this day by the State Superintendent of Education of the Illinois State Board of Education. School districts have worked this year on the curriculum and updated the life/safety code.

Visitations by Regional Office

The Regional Office has visited all school buildings under its jurisdiction during the 1982-1983 school year as required by the School Code of Illinois.

Extension Courses

The Regional Office organizes extension courses with Illinois State University, Eastern Illinois University, and the University of Illinois for area teachers to continue their education.

Scholarships

The 77th General Assembly passed a law which eliminated the Teacher Education Scholarship as of January 1, 1972, leaving only the Special Education, and Child of a Veteran Scholarship. The Special Education Scholarship is issued on a state-wide basis. The Child of a Veteran Scholarship is awarded annually on the basis of scores earned on the ACT examination. Each county in Illinois is eligible for three scholarships which may be used at any of the three campuses of the University of Illinois.

Life/Safety Code

In 1964 - 1965 the State Superintendent of Public Instruction developed rules and regulations to make school buildings safe places for children. The State Superintendent filed copies of the building code with the Secretary of State. The building code became regulatory and boards of education had to comply and bring their buildings into compliance with the regulatory law. Most Vermilion County school buildings have been altered and repaired as required by the Code.

The Regional Office inspected every school attendance facility for its adequacy and safety. We checked the housekeeping of each facility and the safety of the temporary classrooms (portable buildings) during October and November.

County Institute

The Vermilion County Teachers' Institute was held November 12th, at Danville High School. This institute had four different well-known speakers. It was well received by all teachers in the county.

Alcohol/Drug Workshop

The Regional Office sponsored an Alcohol/Drug Awareness Workshop on December 2, 1982. The workshop addressed the prevention of alcohol and drugs, and the teachers, principals, PTA members, and clergy were given materials and resources to enhance their programs.

Integrating Writing Activities in the Language Arts Curriculum Workshop

The Regional Office sponsored a workshop for teachers of K-5 level, April 15th. The workshop shared classroom tested ideas to motivate children to write. It also included ways to use children's literature as a springboard for creative writing.

Writing Articulation Workshops

The Regional Office and Danville Area Community College conducted an English Writing Skills Workshop for high school and college level teachers on April 29th. The workshop acquainted composition teachers with current rhetorical theory, focusing on process models. It also provided practical application for composing written materials.

Home Economics Workshop

The Regional Office sponsored a Home Economics Workshop for all Vermilion County Home Economics teachers on September 27th. The workshop covered teacher curriculum problems and applications. It provided methods of using and implementing the new Home Economics Guide.

Consumer's Computer Consortium Software Workshop

The Regional Office sponsored a Software Workshop for teachers on July 14th & 15th. The workshop covered design elements in good educational software. Demonstrations of exemplary educational software and discussion of group purchases of software and hardware were also included.

Mathematics Workshop

The Regional Office sponsored two Mathematics Workshops for elementary teachers on June 7th & 15th. The workshops were geared toward a more concentrated method of teaching basic concepts of mathematics.

Science Workshops

The Regional Office sponsored two Science Workshops for elementary teachers on June 8th & 21st. The workshops included activities involving the social science, humanities, natural sciences, mathematics, and physical sciences.

Computer Workshops

The Regional Office sponsored four twelve-hour workshops for secretaries, administrators, and teachers from June 6th - June 30th. This was an introductory presentation to the use of the computer and the different terms used in computer language.

School Bus Driver Permits

The Regional Office assumed the responsibility of issuing bus driver permits. Persons wishing to apply for a School Bus Driver Permit must obtain (1) an application form; (2) an annual health certificate. These are available at the Regional Office and at most district superintendents' offices or from district directors of transportation.

The Regional Superintendent has become the hearing officer for all bus drivers who have had two traffic violations in their own vehicles. I have had five hearings this year.

The Bus Driver program requires more attention now than in the past. It requires the equivalent of a half-time secretary to take care of the safety program schedule, scheduling films for superintendents, issuing permits, and bus driver hearings.

Handicapped Children Advisory Committee

The Handicapped Children's Advisory Committee has met six times this past year. The committee has reviewed the different categorical programs that are being offered in Vermilion County schools. They also studied housing the administrative offices in the County Services Building or possibly Danville C. C. #118 warehouse after some renovation.

Regional Board of School Trustees

The Regional Board of School Trustees met on the following date: April 4, 1983. The Board granted an easement to Illinois Bell Telephone Company for Danville District #118. They also granted a petition to have land detached from Danville District #118 and annexed to Bismarck Community District #1.

Dangerous Chemicals

The Regional Office has worked with the Emergency Services and Disaster Agency Director, John Shaffer to help our county schools evaluate dangerous chemicals and the disposal of all old, unused, and dangerous chemicals stored in the chemical storage rooms. The concept is to help them dispose of the chemicals collectively and safely.

Registration and Renewal of Teachers' Certificates

The validity of all Illinois teachers' certificates expires on June 30 of each year as far as legally receiving a salary is concerned. Teachers must register in the county in which they teach each year.

This year, Mrs. Dodd, Mrs. Franklin, and Dr. Ellis visited each attendance center during the months of April and May, and registered the teachers' certificates for the next school year. This was an added service to each teacher and a savings on postage. In the past we have mailed the certificates back to the teachers after having received them through the mail.

Consultation on Teachers' Retirement

The Regional Office held consultation sessions for teacher retirement on November 4, 1982, and March 9, 1983. These workshops were held from 3:00 PM - 8:00 PM. These were individual consultations to answer questions about credit record or retirement expectations. This is a valuable service to teachers and administrators in our area and we plan to have more next school year.

VOICES - (Vocationally Oriented Index of County Educational Speakers)

An updated copy of VOICES has been prepared for the schools of Vermilion County in an effort to bring a vast number of resource professionals to the classroom as well as to provide a visitation guide for teachers and students. Each teacher has a copy available to call these resource people in our county.

Tornado Drills

The Regional Office has worked with the Emergency Services and Disaster Agency Director, John Shaffer to help coordinate tornado drills. The Regional Office also held an administrative meeting on how to use the alert system. They also helped establish a disaster drill in an attendance center with ESDA.

Immunizations - Physical Exams - Health Records

The Regional Office has had two meetings with the Vermilion County Health Department, the Vermilion County Medical Society, and the Vermilion County School Nurses to work out the details on immunization, physical exams, and updating the health records.

Teacher Effectiveness Training

The Regional Office sponsored a thirty-hour course to train teachers as to how

they can use specific principles and skills to improve the quality of teacher-student relationships and deal constructively with discipline problems on July 26-30, 1982.

High School Equivalency Certificates - GED Testing

Section 3-15.12 states that "The Regional Superintendent of each county shall cause to be made available for qualified individuals residing within the county, a High School Equivalency Testing Program."

"Every applicant who has attained the age of 18 years and upward and maintained residence in the state of Illinois and is not a high school graduate, but whose high school class has graduated, or any ward of the Department of Corrections, who has attained the age of 17 years, any inmate confined in any branch of the Illinois State Penitentiary who has attained the age of 17 years and a person who (1) is on active duty with the armed forces of the United States or has been honorably discharged or furloughed to a reserve unit after so serving on active duty, (2) has been a resident of this state of Illinois for at least one year at the time he entered service, and (3) has attained the age of 17 years, is eligible to make application to the Superintendent of the Educational Service Region where the applicant resides." Upon successful completion of the test, attainment of 18 (provided his/her graduating class has graduated) and payment of \$10.00 the applicant will receive a High School Equivalency Certificate.

Cost of the program and grading of tests, diplomas, etc. and receipts are handled through the GED Test Fund and any surplus becomes a part of the Institute Fund, by mandate of the Illinois Statutes.

This past year over 431 people in Vermilion County have taken the GED Test, 59 of the 431 being retests; 376 persons received High School Equivalency Certificates. A number of these people are now taking college work, have received promotions, or have been able to secure a better job as a result.

This program will be of interest to you as a member of the County Board as it makes it possible for any citizen over the age of eighteen who has not completed high school to do so and be awarded a High School Equivalency Certificate.

In addition to passing the GED Test which covers English, Social Studies, Natural Science, Literary Materials and Mathematics, one must also pass a test on the Constitution of the United States and State of Illinois.

Please have any interested citizens of your County Board district contact my office, Monday through Friday.

Exclusive Bargaining Agents

In August, 1981, Governor Thompson signed a new law (PL 82-107) which requires Regional Superintendents to conduct hearings and elections to determine exclusive bargaining agents for school district employees upon petition from 30% of those effected. The bargaining group could be certified teachers, non-certified staff, or certified and non-certified combined. The law does not require the board of education to negotiate, but if boards do negotiate they must do so with the group certified by the election.

The Regional Office conducted a hearing on the bargaining unit for Oakwood Community Unit #76 on March 16th, and an election at Oakwood High School on March 31, 1983. This was the first election to be conducted in Vermilion County.

Illinois State Board of Education

The Illinois State Board of Education met in Vermilion County at Danville Area Community College on April 14. It was a privilege to have the State Board meet in our county and have our school administrators and the general public listen to the discussion of important issues affecting education.

Illinois State Board of Education Student Advisory Council

The seventeen member Student Advisory Council to the Illinois State Board of Education met at Danville Area Community College on April 12-14. They conducted their first student testimony hearings in the state of Illinois before the Student Advisory Council. Several of our county school students testified on various topics such as: length of school day and year, food services, discipline in the schools, computers, and financial cuts in education. After the testimony, the Council met and made a composite of their testimony and presented it to the State Board of Education members on April 14th.

ANNUAL SUMMARY OF ACTIVITIES
1982-1983 SCHOOL YEAR

FOR

James H. Ellis, Ed. D.
Regional Superintendent of Schools

Richard Weller
Assistant Regional Superintendent of Schools

The Regional Superintendent of Schools is the chief school officer between the local school districts and the Illinois State Board of Education. This intermediate school officer, who functions between the local schools and the State, is assigned the following responsibility according to Section 3-14.7 of the School Code of Illinois, "to act as the official advisor and assistant of the school officers and teachers in his county. In the performance of this duty he shall carry out the advice of the Superintendent of the Illinois State Board of Education."

Regional superintendents and assistant regional superintendents must attend many state and regional meetings to be kept aware of the constantly changing rules and regulations in existing programs as well as become knowledgeable of new state and federal programs. It is imperative that regularly scheduled meetings be held with local district superintendents, high school and elementary principals, as we do, in order to aid them in developing and implementing programs for boys and girls of this county.

A look at some of the areas in which we have been involved this past year will give you some idea of the magnitude of expansion that has taken place in the Office of the Regional Superintendent of Schools.

1. Chapter 1 and Chapter 2;
2. Vocational and technical programs including work-study programs (VOTEC);
- 2a. Public Law 94-142 and Section 504 of the Law for Handicapped;
