Financial Policy

Purpose:

The purpose of a **County Financial Policy** is to serve as a foundation for long and short range planning, facilitate decision making, and provide direction to staff for handling the County's day-to-day financial business. Because of the broad and diverse nature of the County's numerous committees and departments, having written, clearly defined financial policies minimizes the risk of developing conflicting or inconsistent goals and objectives which could have a negative impact on the overall financial position of the County.

1.00 Reserves

- 1.01 Each fund should maintain a cash fund balance at a level which will provide for a positive cash balance throughout the fiscal year. In the General Fund, such amount should be no less than 25% of the annual appropriation.
- 1.02 Adequate insurance or fund reserves will be maintained to not jeopardize the financial position of the County in the event of a major unplanned occurrence.
- 1.03 The Option II Sick Days and Personal Days off systems should be funded in an amount that equals the total expected payout in a given fiscal year, less their normal annual accrual.
- 1.04 One-time revenue sources, which are substantial in nature, will be held in reserve until such time as the County Board would identify a specific use.
- 1.05 Capital Improvements Fund balance is somewhat higher since the juvenile detention problems are imminent.

2.00 Use

- 2.01 A financial system should be utilized which will provide for on-going budgetary control, with monthly reports to department heads.
- 2.02 The County Board should annually receive and approve specific goals for departments prior to June 1.
- 2.03 Budget goals for the next fiscal year should be established by the Finance Committee prior to July 1.
- 2.04 A five year Capital Projects Budget should be presented with each annual operation budget.

3.00 Funding

3.01 Revenues

- 3.01.01 Sound appraisal procedures will be maintained to keep property values current.
- 3.01.02 Where possible, the County will identify and establish all user charges and fees at a level related to the cost of providing the services; these charges and costs will be re-evaluated annually.
- 3.01.03 Disbursement, collection and deposit of all funds will be scheduled to insure an efficient cash flow and to maximize investments.
- 3.01.04 When permitted by law, the County should pool cash from different funds for investment purposes.

3.02 Expenditures

- 3.02.01 The County will pay all current expenditures with current revenue.
- 3.02.02 Annual appropriations will be made for the adequate maintenance of capital plant and equipment.
- 3.02.03 A plan should be devised and funded which provides for the orderly replacement of equipment.
- 3.02.04 The County will not use long term debt for current operations.

Vermilion County, Illinois
1995 - 1996 Fiscal Budget

4.00 Controls

- 4.01 Financial systems will be maintained in accordance with generally accepted accounting principles.
- 4.02 An independent certified public accountant will perform an annual audit and will publicly issue a financial opinion; a statement on internal controls and a schedule of findings, questioned costs and auditee corrective action plan will be part of the report.
- 4.03 The County should carefully monitor state legislation and its impact on Vermilion County.
- 4.04 Policies and procedures should be developed to provide for position control, as it relates to authorized positions, hours budgeted and worked, and filling vacancies.
- 4.05 The County should maintain separate policies and administrative procedures for the following areas:
 - 4.05.01 Personnel
 - 4.05.02 Information Data Processing
 - 4.05.03 Purchasing
 - 4.05.04 Fleet Management
 - 4.05.05 Building Utilization
 - 4.05.06 Petty Cash
 - 4.05.07 Risk Management (Insurance)
 - 4.05.08 The County will maintain a fixed assets inventory.
 - 4.05.09 Internal control procedures should be formally documented and reviewed periodically.
 - 4.05.10 The County will maintain a comprehensive accounting procedures manual and update it on a continuing basis.

5.00 Budgetary

5.01 Basis of Accounting

- 5.01.01 Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements.
- 5.01.02 Accounting records and reports made by County officials are on the cash basis. Under this method, revenue is recorded when collected and expenditures are recorded when disbursements are made. However, the Illinois County Auditing Law requires audit reports to contain statements that are in conformity with generally accepted accounting principles, setting forth financial position and the results of operations. For purposes of these financial statements, the accounting for all the funds has been converted to the modified accrual basis or accrual basis, as required by generally accepted accounting principles.
- 5.01.03 All governmental and fiduciary funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Taxpayer-assessed income, gross receipts, and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are recognized as revenue at that time.
- 5.01.04 Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.
- 5.01.05 The proprietary fund is accounted for using the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when they are incurred.

5.02 Budget and Appropriations

- 5.02.01 The County adopts an annual budget and appropriation ordinance in accordance with ILCS Chapter 55, Act 5. The budget covers the fiscal year ending November 30, and is available for public inspection at least fifteen days prior to final adoption. All appropriations cease with the close of the fiscal year.

** Fund balances are reported on an accrual basis. The budget statements should be read only in conjunction with the accompanying financial policy (5.00).*

Glossary

Accounting System

The total structure of records and procedures which discover, record, classify, summarize, and report information on the financial position and results of operations of a government or any of its funds, fund types, balanced account groups, or organizational components.

Accounts Payable

A liability account reflecting amounts on open account owing to private persons or organizations for goods and services received by a government (but not including amounts due to other funds of the same government or to other governments).

Accounts Receivable

An asset account reflecting amounts owing on open account from private persons or organizations for goods and services furnished by a government (but not including amounts due from other funds of the same government). Although taxes and special assessments receivable are covered by this term, they should be recorded and reported separately in Taxes Receivable and Special Assessments Receivable accounts respectively. Amounts due from other funds or from other governments should also be reported separately.

Accrual Basis

The basis of accounting under which transactions are recognized when they occur, regardless of the timing of related cash flows.

Appropriation

A legal authorization granted by a legislative body to make expenditures and to incur obligations for specific purposes. An Appropriation is usually limited in amount and as to the time when it may be expended.

Assessed Valuation

A valuation set upon real estate or other property by a government as a basis for levying taxes.

Assessment

- (1) The process of making the official valuation of property for purposes of taxation.
- (2) The valuation placed upon property as a result of this process.

Glossary

Audit

A methodical examination of utilization of resources. It concludes in a written report of its findings. An audit is a test of management's accounting system to determine the extent to which internal accounting controls are both available and being used.

Budget

A plan of financial operation embodying an estimate of proposed expenditures for a given period and the proposed means of financing them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year. The term "budget" is used in two senses in practice. Sometimes it designates the financial plan presented to the appropriating body for adoption and sometimes the plan finally approved by that body. It is usually necessary to specify whether the budget under consideration is preliminary and tentative or whether it has been approved by the appropriating body.

Budget Document

The instrument used by the budget-making authority to present a comprehensive financial program to the appropriating body. The budget document usually consists of three parts. The first part contains a message from the budget-making authority, together with a summary of the proposed expenditures and the means of financing them. The second consists of schedules supporting the summary. These schedules show in detail the information as to past years' actual revenues, expenditures, and other data used in making the estimates. The third part is composed of drafts of the appropriation, revenue, and borrowing measures necessary to put the budget into effect.

Budgetary Control

The control or management of a government or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

Cash

An asset account reflecting currency, coin, checks, postal and express money orders, and bankers' drafts on hand or on deposit with an official or agent designated as custodian of cash and bank deposits. All cash must be accounted for as a part of the fund to which it belongs. Any

Glossary

restrictions or limitations as to its availability must be indicated in the records and statements. It is not necessary, however, to have a separate bank account for each fund unless required by law.

Expenditures

Decreases in net financial resources. Expenditures include current operating expenses which require the current or future use of net current assets, debt service, and capital outlays.

Fiscal Period

Any period at the end of which a government determines its financial position and the results of its operations.

Fiscal Year

A 12-month period to which the annual operating budget applies and at the end of which a government determines its financial position and the results of its operations.

Forfeiture

The automatic loss of cash or other property as a punishment for not complying with legal provisions and as compensation for the resulting damages or losses. This term should not be confused with confiscation. The latter term designates the actual taking over of the forfeited property by the government. Even after property has been forfeited, it cannot be said to be confiscated until the government claims it.

Fund

A fiscal and accounting entry with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Fund Balance

The fund equity of governmental funds and Trust Funds.

Glossary

Fund Type

In governmental accounting, all funds are classified into eight generic fund types: General, Special Revenue, Debt Service, Capital Projects, Special Assessment, Enterprise, Internal Service, and Trust and Agency.

Funding

The conversion of floating debt or time warrants into bonded debt.

General Accepted Accounting Principles (GAAP)

Uniform minimum standards of and guidelines to financial accounting and reporting. They govern the form and content of the basic financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practices at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provide a standard by which to measure financial presentations. The primary authoritative statement on the application of GAAP to state and local governments is NCGA Statement 1. Every government should prepare and publish financial statements in conformity with GAAP. The objectives of governmental GAAP financial reports are different from and much broader than the objectives of business enterprise GAAP financial reports.

General Fund

The fund used to account for all financial resources except those required to be accounted for in another fund.

Grants

Contributions or gifts of cash or other assets from another government to be used or expended for a specified purpose, activity, or facility.

Investments

Securities and real estate held for the production of revenues in the form of interest, dividends, rentals, or lease payments. The term does not include fixed assets used in governmental operations.

Glossary

Levy

- (1) To impose taxes, special assessments, or service charges for the support of governmental activities.
- (2) The total amount of taxes, special assessments, or service charges imposed by a government.

Liabilities

Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or re-funded at some future date.

Long-Term Budget

A budget prepared for a period longer than a fiscal year: or, in the case of some state governments, a budget prepared for a period longer than a biennium. Long-term budgets concerned with capital outlay plans and capital improvement programs are referred to as capital budgets.

Ordinance

A formal legislative enactment by the governing board of a municipality. If it is not in conflict with any higher form of law such as a state statute or constitutional provision, it has the full force and effect of law within the boundaries of the municipality to which it applies. The difference between an ordinance and a resolution is that the latter requires less legal formality and has a lower legal status. Ordinarily, the statutes or charter will specify or imply those legislative actions which must be by ordinance and those which may be by resolution. Revenue raising measures, such as the imposition of taxes, special assessments and service charges, universally require ordinances.

Reserve

- (1) An account used to earmark a portion of fund balance to indicate that it is not appropriate for expenditure.
- (2) An account used to earmark a portion of fund equity as legally segregated for a specific future use.

Resolution

A special or temporary order of a legislative body; an order of a legislative body requiring less legal formality than an ordinance or statute.

Glossary

Special District

An independent unit of local government organized to perform a single governmental function or a restricted number of related functions. Special districts usually have the power to incur debt and levy taxes; however, certain types of special districts are entirely dependent upon enterprise earnings and cannot impose taxes. Examples of special districts are water districts, drainage districts, flood control districts, hospital districts, fire protection districts, transit authorities, port authorities, and electric power authorities.

Stipend

A fixed sum of money paid periodically for services or to defray expenses.

Tax Rate

The amount of tax stated in terms of a unit of the tax base; for example, 25 mills per dollar of assessed valuation of taxable property.

Tax Rate Limit

The maximum rate at which a government may levy a tax. The limit may apply to taxes raised for a particular purpose, or to taxes imposed for all purposes, and may apply to a single government, to a class of governments, or to all governments operating in a particular area. Overall tax rate limits usually restrict levies for all purposes and of all governments, state and local, having jurisdiction in a given area.

Taxes

Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges as, for example, sewer service charges.

Trial Balance

A list of the balances of the accounts in a ledger kept by double entry, with the debit and credit balances shown in separate columns. If the totals of the debit and credit columns are equal or their net balance agrees with a control account, the ledger from which the figures are taken is said to be "in balance."
