## INDEPENDENT AUDITOR'S REPORT

Board of Commissioners  
Danville Public Building Commission  
Danville, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and the aggregate remaining fund information of the Danville Public Building Commission, Danville, Illinois, as of and for the year ended October 31, 2005, which collectively comprise the Commission's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Danville Public Building Commission's, Danville, Illinois management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, and the aggregate remaining fund information of the Danville Public Building Commission, Danville, Illinois as of October 31, 2005, and the respective changes in financial position and cash flows, where applicable, and the respective budgetary comparison for the General Fund, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 2 through 9 is not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Danville Public Building Commission, Danville, Illinois, basic financial statements. The Management Discussion and Analysis and the supplemental information are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Danville Public Building Commission. The supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects in relation to the basic financial statements taken as a whole. The Management's Discussion and Analysis has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

## Management's Discussion and Analysis

As management of the Danville Public Building Commission, we offer readers of the Commission's financial statements this narrative overview and analysis of the financial activities of the Danville Public Building Commission for the fiscal year ended October 31, 2005. The Commission is to be disclosed as a joint venture in the financial statements of Vermilion County, Illinois, the City of Danville, Illinois, and Danville Community Consolidated School District #118.

## Financial Highlights

- ◆ The assets of the Danville Public Building Commission exceeded its liabilities at the close of the most recent fiscal year by \$4,103,753 (*net assets*). Due to the unique custodial relationship between the Commission as project manager of four major intergovernmental construction projects and the local government lessees, all of the net assets are either invested in Commission capital assets or restricted for specific purposes. As a result, any amounts necessary to meet future obligations to citizens and creditors must come from future lease income; in theory any residual unrestricted net assets are recorded as a liability to the City of Danville, Danville School District #118, or Vermilion County.
- ◆ The government's total net assets increased by \$73,124. The general reserve accounts for the municipal building and the burglar alarm increased modestly, since the remainder of general fund operating net income must by contractual agreement be returned to the respective local governments. The Capital Improvements fund increased by \$26,360 and the Maintenance fund decreased by \$6,527. The increase in the Capital Improvements fund was due to capital outlay of only \$182,081. The Maintenance fund decrease was due to capital outlay of \$149,955.
- ◆ The Commission's total debt of \$6,625,000 during this fiscal year was reduced by \$255,000, which was for the Jail and Juvenile Detention Center Revenue bonds.

## Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Commission's basic financial statements. The Commission's basic financial statements comprise three components: 1) Government-wide financial statements (new under GASB 34), 2) Fund financial statements, and 3) Notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the Commission's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the Commission's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating.

The *statement of activities* presents information showing how the Commission's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., the inception of new direct financing leases for new construction projects, or earned but uncollected operating lease revenues.)

The government-wide financial statements can be found on pages 10-11 of this report.

**Fund financial statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Commission, like other local governmental entities, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Commission can be divided into governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's *near-term* financing requirements.

Because the focus of governmental funds is more narrow than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Commission maintains the general fund as its only governmental fund, also automatically considered a major fund by its very nature of providing for the general operations of the Building Commission.

The Commission adopts an annual appropriated budget for its general fund. Generally accepted accounting principles require a budgetary comparison statement be provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 12-15 of this report.

**Proprietary funds.** The Building Commission uses enterprise funds to report the activities of each of the ongoing construction projects it manages under the joint venture arrangements discussed above. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements.

Enterprise funds are used in situations where a given fund provides services to others outside the financial reporting entity on a cost recovery basis. While the Danville Public Building Commission does not provide its services directly to customers, (normally the case in enterprise funds) neither is the Commission itself the predominant beneficiary (normally the case in internal service funds). Instead, the ultimate beneficiaries are the taxpayers of each local government as leasee. The Commission uses enterprise funds to account for the activities of the High School construction project, Courthouse renovation, and Jail

addition and Juvenile Detention Center projects (reported together as the Jail Addition Fund in the financial statements due to the joint bond offering for those projects).

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Jail Addition fund is considered to be a major fund of the Commission since it comprises more than 10 percent of the total assets, revenues, and/or expenditures and at least 5 percent of the corresponding total for the total of all governmental and enterprise funds combined. The High School Construction and Courthouse Renovation funds were deemed important enough to the Commission's financial statement users to be identified also to be major funds, since the primary purpose of the Commission is to manage these construction projects.

Project budgets are developed for each of the construction projects reported in proprietary funds. Additionally, proprietary fund budgets are developed annually for each project, based upon percentage of completion to-date and any new circumstances since the start of each project.

The basic proprietary fund financial statements can be found on pages 16-19 of this report.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the Commission's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The Commission has two fiduciary fund types, a Defined Compensation Trust adopted under Section 457 of the Internal Revenue Code and two agency funds for which funds are held on behalf of flexible contribution plan participants and a Veteran's honor roll cash account.

The Commission is not required to make any contributions into the pension plan, but holds the assets in trust for plan participants. The plan is administrated by Nationwide Retirement Solutions.

The basic fiduciary fund financial statements can be found on pages 20-21 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 22-36 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Commission's progress in funding its obligation to provide pension benefits to its employees. This plan is a defined benefit plan administrated and held in trust by the State of Illinois for State Municipalities (Illinois Municipal Retirement Fund, or 'IMRF'). Details of the changes in the general fund's reserve accounts are also provided.

As all of the Commission's funds are considered to be major, one difference between the former method of financial statement presentation and the new reporting model using GASB 34 is that there is no combining statements presented after the footnotes to the financial statements.

In other words, all of the Commission's *required* financial information is presented before the notes to the financial statements. The Commission also provides as supplemental information a Statement of Changes in Reserved Accounts for the General Fund, also referred to as the Public Safety Building (PSB) Fund. This statement details the current year's revenues, expenditures, and changes in net assets for all PSB departments.

### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Danville Public Building Commission, assets exceeded liabilities by \$4,030,629 at the close of the most recent fiscal year.

By far the largest portion of the Commission's net assets (percent) reflects its investment in capital assets (e.g., land, buildings, infrastructure, and equipment). It is useful to note that there is no debt related to the net assets related to that invested in capital assets; normally any related debt would be deducted from the investment to arrive at the amount stated for this reserve. The Commission uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

	Governmental Activities		Business-type Activities			
	2005	2004	2005	2004	2005	2004
Current and other assets	2,225,900	1,506,644	9,748,907	10,051,350	11,974,807	11,557,994
Capital assets, net	3,460,518	3,414,802	-	-	3,460,518	3,414,802
Total assets	5,686,418	4,921,446	9,748,907	10,051,350	15,435,325	14,972,796
Long-term liabilities	-	-	6,625,000	6,880,000	6,625,000	6,880,000
Due to other governments, net	1,276,080	654,031	2,880,016	2,917,208	4,156,096	3,571,239
Other liabilities	296,959	227,562	253,517	263,366	550,476	490,928
Total liabilities	1,573,039	881,593	9,758,533	10,060,574	11,331,572	10,942,167
Invested in capital assets	3,460,518	3,414,802	-	-	3,460,518	3,414,802
Ending net assets	4,113,379	4,039,853	(9,626)	(9,224)	4,103,753	4,030,629

It is helpful to note that although by its nature the business-type activities are constructing major capital improvements, these improvements are assets of the other governmental entities and instead the Danville Public Building Commission holds a construction or direct-financing lease receivable as the asset representing the ongoing construction. This is why no capital assets are shown for the business-type activities of the Building Commission.

For more detailed information see the Statement of Net Assets on page 10.

As all of the net assets relate to the Commission's General Fund, amounts not related to the investment in capital assets may be used to meet the Commission's anticipated future needs in each of several reserve accounts, with prior approval by the Commission's board for funds spent from the capital improvements reserve and the maintenance reserve. The Commission's net assets increased to \$4,103,753 from \$4,030,629, an increase of \$73,124. The commission closely tracked the general fund budget facilitated in part by use of a contingency reserve in the operations function. It is helpful to note that there is no net asset for any of the enterprise funds because the underlying lease agreements do not allow for an accumulation of net assets for these contracts. Instead, any net profit is due back to the lessees on a prorata basis of their collective payments on the leases.

## Danville Public Building Commission's Change in Net Assets

	Governmental		Business-type		Total	
	Activities		Activities			
	2005	2004	2005	2004	2005	2004
Revenues:						
Program revenues:						
Charges for services	25,636	30,014	-	-	25,636	30,014
Operating leases and contributions	4,817,839	4,718,552	578,437	504,831	5,396,276	5,223,383
Capital grants and contributions	100,000	-	-	-	100,000	-
Excess due from other governments	-	-	165,389	266,901	165,389	266,901
General revenues:						
Interest Income	104,269	38,154	-	-	104,269	38,154
Other	4,568	1,802	-	-	4,568	1,802
Transfers In	-	-	-	-	-	-
Total revenue	5,052,312	4,788,522	743,826	771,732	5,796,138	5,560,254
Administrative	106,292	100,154	-	-	106,292	100,154
Operations and maintenance	1,202,282	1,146,243	-	-	1,202,282	1,146,243
Communications	877,219	839,552	-	-	877,219	839,552
Assigned personnel and dietary	1,854,671	1,740,394	-	-	1,854,671	1,740,394
Excess due to other governments	622,049	654,031	-	-	622,049	654,031
Depreciation expense	316,675	300,782	-	-	316,675	300,782
Direct-financing leases	-	-	596,853	646,600	596,853	646,600
Juvenile Detention Center	-	-	146,973	125,132	146,973	125,132
Transfer out	-	-	-	-	-	-
Total expenses	4,979,188	4,781,156	743,826	771,732	5,723,014	5,552,888
Total net expenses	73,124	7,366	-	-	73,124	7,366

Governmental operating lease income increased slightly by 2.6 percent compared to the previous year as agreed to by contract. In the business-type funds net expenses exceeded net revenues as shown by the excess due from other government line.

Increases in expenses otherwise closely followed inflation.

### Financial Analysis of the Commission's Funds

As noted earlier, the Commission uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the Commission's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Commission's ability to meet financial requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As in prior years, all of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed 1) to liquidate the current portion of revenue bond principle or 2) to finish certain capital projects undertaken through federal and state grants.

As a measure of the general fund's liquidity, most governmental agencies compare both unreserved fund balances and total fund balances to total fund expenditures. Due to the unique relationship between the Commission and its joint venture partners, these typical comparisons cannot be made since all of the excess receipts are recorded as a liability due the other governments instead of as unreserved fund balance.

However, the liability for the year end October 31, 2005 and due back to the City and County in the amount of \$622,049 represents 12 percent of total general fund expenditures, or conversely, only about 12 percent of current year general fund revenues, mostly comprising the PSB operating lease, was needed to cover current year expenditures.

### **Budgetary Highlights**

As discussed above, budgets are developed and used for the general fund on an annual basis, and proprietary funds on both project-wide and annual basis. Primary differences between budget and actual spending amounts were as follows:

The Public Safety Building or General Fund had a \$31,248 favorable variance (4.44 percent of budget) over the final amended budget for salaries during the year. This also resulted in a favorable variance of \$20,353 (36.80 percent of budget) for payroll taxes.

The next largest favorable operating and maintenance variance was \$18,239 for Employee Insurance. This had a favorable variance of approximately 18.46% of budget. This favorable variance was due to a reduction of insurance premiums.

The next largest favorable operating and maintenance variance was \$16,024 for utilities of the PSB. This had a favorable variance of approximately 4.44% of budget. Management made conservative estimates of energy usage and the region once again experienced a less severe winter than expected.

The communications salaries and payroll taxes favorable variances of \$33,474 were due to unexpected vacancies in staff during the year. Due to the technical requirements those positions require, it takes a considerable amount of time to interview, hire, and train new 911 operators.

The next largest favorable variance for the communications was \$11,111 for Employee Insurance. This had a favorable variance of approximately 7.65% of budget. This favorable variance was due to a reduction of insurance premiums.

The assigned personnel and dietary had a favorable variance of \$9,555 for Dietary services for prisoners.

The next largest favorable variance for assigned personnel and dietary was \$6,246 for Training/Correctional Officers.

Other general fund budget variances were relatively minor; since total expenditures were less than budgetary estimates rebates were due the County and City again this year.

### **Capital Assets, Construction and Debt Administration**

**Capital assets.** The Commission's investment in capital assets for its governmental activities as of October 31, 2005 amounts to \$3,460,518 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, furniture, fixtures and equipment. The total increase in the Commission's gross investment in capital assets for the current fiscal year was approximately 1 percent.

Major capital asset events during the current fiscal year included the construction of the kitchen and laundry area, the purchase of a CCTV/Card reader system, the purchase of computers for the city police and the purchase of a server for the city and county.

Additional information on the Commission's capital assets can be found in note 3 on page 26 of this report.

### **Construction Projects (Proprietary Funds)**

As noted above, the construction projects managed by the Commission will be assets of the County, City, and School District. The status of each project in order of their significance is as follows:

#### *Juvenile Detention Center*

This project is complete. Agreements for operations and maintenance between the County and the Commission will continue until the end of the terms of the agreements or the agreement is terminated.

#### *Jail Addition*

The project is complete.

#### *Courthouse Renovation*

The Commission continues to make necessary improvements using their professional maintenance staff as the Board separately considers and approves or disapproves each identified Courthouse project, using funds remaining in the Courthouse Lease Fund as permitted by the lease document. The surplus funds were to be remitted to the county at the end of the lease, however the county has requested the Commission retain the surplus funds until directed by them on the allocation of the funds.

#### *High School Renovation*

As this project is complete, the School District has requested the Commission retain the surplus funds until directed by them on the allocation of the funds.

**Long-term debt.** At the end of the current fiscal year, the Commission had two issues of Jail addition and Juvenile Detention Center revenue bonds outstanding in the amount of \$6,625,000. These bonds maintain an "AAA" rating from Moody's rating agency.

### **Economic Factors and Next Year's Budgets and Rates**

The Commission's administration of the Public Safety Building includes assessing the continued functionality of the building. As demonstrated by the relatively minor increase in net assets year to year for the General Fund, the Board continues to manage and assess potential capital projects closely within the annual budget. Management of the Public Safety Building believes that a number of potential projects exist for which the spending of the excess balance in the Jail Addition Fund might be appropriate. These include:

- ◆ phase II of the repairing of the jail parking lot

- ◆ the replacement of the fingerprint fax machine
- ◆ awarded federal funds to up-grade the exterior security of the PSB
- ◆ the replacement of the water softner
- ◆ upgrade or replacement of the maintenance computer system
- ◆ the isolation of equipment as required for servicing
- ◆ the replacement of the computer systems in both the city and county police cars as a joint venture with 911
- ◆ the replacement of the two boilers that are located in the old mechanical equipment room with five smaller boilers in the new mechanical equipment room that were specifically designed for this purpose
- ◆ planning for the expansion of the 911 center
- ◆ upgrade of the sheriff's dispatch and point to point communications
- ◆ preliminary engineering analysis of the tunnel used for limited storage
- ◆ analysis of the existing utility systems to find an alternative to reduce consummation of gas and electric

Additionally, the Commission considered the following in the development of the 2006 fiscal year budget:

- ◆ Inflationary trends in the locale are slightly less favorable compared to national indices.
- ◆ Unemployment in Vermilion county is currently 5.3 percent compared to 7.6 percent one year ago

### **Request for information**

This financial report is designed to provide a general overview of the Danville Public Building Commission's finances for all those with an interest in the Commission's finances. Questions regarding any of the information provided in this report or requests for additional financial information should be addressed to:

DANVILLE PUBLIC BUILDING COMMISSION  
GOVERNMENTAL FUND BALANCE SHEET  
October 31, 2005

	General Fund
ASSETS	
Cash and cash equivalents	1,715,900
Restricted cash and cash equivalents	356,688
Accounts receivable	12,932
Grants receivable	100,000
Prepaid expenses	40,380
TOTAL ASSETS	<u>2,225,900</u>
LIABILITIES AND FUND BALANCES	
Accounts payable	267,822
Accrued expenses	29,137
Due to other funds	9,626
Due to City of Danville	46,552
Due to Vermilion County	575,497
Due to other governments	<u>654,031</u>
TOTAL LIABILITIES	<u>1,582,665</u>
Fund balances:	
Reserved for:	
Burglar Alarm	81,478
Management agreements	30,344
Capital improvements	297,433
Maintenance	<u>233,980</u>
Total fund balances	643,235
Capital assets used in governmental activities are not financial resources and therefore not reported in the general fund.	3,460,518
Interfund balances are eliminated in the consolidation for the statement of net Assets	<u>9,626</u>
Net assets of governmental activities	<u>4,113,379</u>

See accompanying notes.

DANVILLE PUBLIC BUILDING COMMISSION  
GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCE  
Year Ended October 31, 2005

	General Fund
OPERATING REVENUES	
Rent	4,817,839
Grant	100,000
Salary reimbursement	25,636
Interest on investments and deposits	104,269
Miscellaneous	4,568
Total operating revenues	<u>5,052,312</u>
OPERATING EXPENDITURES	
Administrative	106,292
Operations and maintenance	1,202,282
Communications	877,219
Assigned personnel and dietary	1,854,671
Capital outlay	362,391
Total operating expenditures	<u>4,402,855</u>
INCOME FROM OPERATIONS	<u>649,457</u>
NON-OPERATING EXPENDITURES	
Excess earnings due to government units	<u>622,049</u>
Total non-operating expenditures	<u>622,049</u>
Excess of Revenues over (under) Expenditures	27,408
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay (362,391) exceeded depreciation (316,675) in the current period.	<u>45,716</u>
Changes in net assets	<u>73,124</u>

See accompanying notes.

DANVILLE PUBLIC BUILDING COMMISSION  
NOTES TO COMBINED FINANCIAL STATEMENTS  
October 31, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Danville Public Building Commission, a municipal corporation, was organized under the provisions of the "Public Building Commission Act of the State of Illinois", approved July 5, 1955, as amended, and was incorporated for the purpose of exercising the powers and authority prescribed by the provisions of said "Public Building Commission Act of the State of Illinois" to enable the erecting, equipping, and providing of modern public buildings to house various branches, departments, and agencies of government in the County seat of Vermilion County, Illinois.

Reporting Entity - The Commission's reporting entity, includes the Commission's governing board and all related organizations for which the Commission is financially accountable.

The commission is not aware of any entity, which would be financially accountable for the Commission to the extent that the Commission would be considered a component unit of the entity. The Commission is to be disclosed as a joint venture in the general-purpose financial statements of the following entities:

Vermilion County, Illinois  
City of Danville, Illinois  
Danville Community Consolidated School District 118

A joint venture presentation is a footnote disclosure of each entity's share of the Commission's assets, liabilities, and retained earnings.

Government-Wide and Fund Financial Statements - The government-wide financial statements (i.e., the Statement of Net Assets) report information on all of the activities of the Commission. The effect of material interfund activity has been eliminated from these statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or program are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function or segment. Program revenues include 1) grants and related revenues such as revenue related to direct financing and operating leases that are restricted to meeting the operational or capital requirements of a particular function and 2) charges for services such as salary reimbursements. Interest income not specifically related to investments of the proprietary funds is reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

DANVILLE PUBLIC BUILDING COMMISSION  
NOTES TO COMBINED FINANCIAL STATEMENTS (CONT.)  
October 31, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

Measurement Focus, Basis Of Accounting, And Financial Statement Presentation – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Operating rent and direct financing lease revenue are recognized as revenues in the year for which they are earned. The basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Proprietary funds are accounted for using the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when they are incurred.

Fund Accounting - Governmental agencies use funds to report on their financial position and the results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate “fund types”. Presently, the Commission has three categories of funds, the governmental (general fund), the proprietary, (enterprise) and the fiduciary (pension trust fund).

Proprietary funds are accounted for on a flow of economic resources measurement focus. The accounting objectives are determination of net income, financial position, and changes in cash flow. All assets and liabilities associated with a proprietary fund’s activities are included on its balance sheet. Proprietary fund equity is segregated into contributed capital if any, and retained earnings.

Fiduciary fund types are used to account for assets held by the Commission in a trustee capacity or as an agent for individuals, private organizations, other governments and /or other funds.

Budget - In accordance with their intergovernmental agreement, the Board approves an annual operating budget.

DANVILLE PUBLIC BUILDING COMMISSION  
NOTES TO COMBINED FINANCIAL STATEMENTS (CONT.)  
October 31, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

Fixed Assets and Long-Term Liabilities - Depreciation of all exhaustible fixed assets is charged as an expense against operations on the government-wide financial statements. Accumulated depreciation is reported on the government-wide statement of net assets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Building	40 years
Improvements	40 years, 15 years, and 10 years
Equipment	10 years
Computer Equipment & Software	5 years and 3 years

Cash and Cash Equivalents - Cash and cash equivalents include all liquid investments with a maturity of three months or less when purchased.

Excess Earnings - The Commission records all revenues over expenses associated with their direct financing leases, as non-operating expenses and a liability to other governmental units. The lease agreements require all excess earnings to be refunded at the end of the lease term.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - CASH AND CASH EQUIVALENTS AND INVESTMENTS

Statutes authorize the Commission to make deposits and invest in obligations of the U.S. Treasury and U.S. Agencies, obligations of the U.S., states and their political subdivisions, savings accounts, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Public Treasurer's Investment Pool.

Cash and Cash Equivalents - Cash balances available for investment by the majority of commission funds are maintained in individual bank and pooled investment accounts to improve investment opportunities. Income from pooled investment accounts is allocated to the participating funds on percentage of pool ownership basis. These are balances that have a maturity of 3 months or less.

DANVILLE PUBLIC BUILDING COMMISSION  
NOTES TO COMBINED FINANCIAL STATEMENTS (CONT.)  
October 31, 2005

NOTE 2 - CASH AND CASH EQUIVALENTS AND INVESTMENTS (cont.)

Deposits - The following table categorizes deposits according to levels of risk.

CATEGORY #1	CATEGORY #2	BANK BALANCE	CARRYING AMOUNT
<u>169,294</u>	<u>3,116,285</u>	<u>3,285,579</u>	<u>3,271,015</u>

Category #1 includes deposits and cash equivalents that are insured by the FDIC, or registered, or securities that are held by the Commission or its agent in the Commission's name.

Category #2 includes deposits and cash equivalents for which securities are held by the pledging financial institution or its trust department but not in the Commission's name.

Category #3 includes uninsured and uncollateralized deposits and cash equivalents.

Restricted cash and cash equivalents – the various certificates of participation ordinances require the Commission to retain certain amounts of the annual rent charges for restricted purposes. As of October 31, 2005, restricted cash and cash equivalent balances are:

	General Fund	Jail Addition Fund	Total
Capital improvement	214,411	-	214,411
Maintenance	142,277	-	142,277
Bond reserve	-	27	27
Surplus	-	27	27
Total restricted	<u>356,688</u>	<u>54</u>	<u>356,742</u>

Jail Design and Construction	(889,801)
Jail Operating and Maintenance	(483,245)
Juvenile Detention	1,385,952
	<hr/>
Total interfund effect	-

NOTE 5 - LEASE AGREEMENT

Courthouse Renovation Fund - The Commission entered into a lease agreement with the County of Vermilion, wherein the Commission renovated the existing Vermilion County Courthouse and Annex and leased it to Vermilion County for the period, which began on December 1, 1987 and ended on December 31, 2002.

At the end of the lease, the title to the site reverted back to the County.

At the end of the lease, all assets remaining in the fund were to be transferred to the County. The County has requested that the Building Commission retain the surplus funds until directed by them on the allocation of these funds. As of October 31, 2005 the liability due to the County for excess revenues from this lease totaled \$569,893.

High School Renovation Lease – The commission entered into a lease agreement with Danville Community Consolidated School District 118, which began on September 28, 1988 and ended on May 1, 2003.

During the construction phase of the agreement, all costs associated with the renovation were accounted for in the High School Construction Fund.

At the end of the lease, all assets remaining in the fund were to be transferred to the School District. The School District has requested that the Building Commission retain the surplus funds until directed by them on the allocation of these funds. As of October 31, 2005, the liability due to the School District for excess revenues from this lease totaled \$279,444.

NOTE 5 – LEASE AGREEMENT (cont.)

Jail Addition and Juvenile Detention Center Leases – The Commission has entered into lease agreements with Vermilion County and the City of Danville, where the Commission will be adding an addition to the existing Public Safety Building. The Jail addition will be leased to Vermilion County for a period beginning on November 1, 2001 and ending on December 31, 2020.

At the end of the lease, the title to the Public Safety Building addition will remain with the Commission. Title to the Juvenile Detention Center will revert back to the County when the bonds are retired and providing that there are no operating leases in place. All remaining assets in the Juvenile Detention Facility Fund will be transferred to the County at the end of the lease. As of October 31, 2005 the receivable due from the County for excess expenditures from this construction lease totaled \$1,021,571.

At the end of the Jail addition lease, all remaining assets will be transferred to the County and City. As of October 31, 2005 the liability due to the County for excess revenues from this lease totaled \$3,052,250. The receivable due from the City for excess expenses from this lease totaled \$ 1,869,826.

Future lease payments to be received including principal and interest, under the lease agreements are as follows for the next five years:

	Juvenile Detention Center Lease	County Jail Addition Lease	City Jail Addition Lease
2006	423,005	68,966	128,871
2007	424,308	70,301	128,871
2008	426,595	66,419	128,871
2009	426,595	67,373	128,871
2010	425,220	68,044	128,871
	<u>2,125,723</u>	<u>341,103</u>	<u>644,355</u>

The Commission entered into an operating lease agreement with Vermilion County for the 12 months ending November 30, 2003 for the operation of the Juvenile Detention Facility. This operating lease automatically renews for successive one-year periods until the end of the lease term or the lease is terminated; for the 12-month period ending November 30, 2005 the gross rental income is \$160,000.

If the accrual of receipts in any year is in excess of expenditures for this lease, the Commission shall refund the excess to the County. For the year ended October 31, 2005 net rental receipts were in excess of funds by \$4,911.

2009	140,090	30,555	74,353	244,998
2010	152,898	32,695	77,802	263,395
Thereafter	3,263,319	775,290	1,089,497	5,128,106
TOTAL	4,162,552	931,703	1,455,145	6,549,400

Public Safety Building Lease - A lease agreement was entered into on November 1, 1997, with the City of Danville and County of Vermilion where the Commission agreed to lease the Public Safety Building to the City and County for their joint use. This agreement includes the operations of a Joint Communications Center whose costs will be divided and apportioned equally between the County and the City. The agreement provides also for the salaries and fringe benefits of "leased" employees whose costs shall be apportioned solely to the County. The lease agreement is in effect from November 1, 2005 through October 31, 2009.

Lease payments are due as follows:

	Public Safety Building		Total
	County	City	
November 1, 2005	4,100,269	955,000	5,055,269
November 1, 2006	4,232,621	992,000	5,224,621
November 1, 2007	4,369,039	1,020,700	5,389,739
November 1, 2008	4,449,130	1,049,200	5,498,330

DANVILLE PUBLIC BUILDING COMMISSION  
NOTES TO COMBINED FINANCIAL STATEMENTS (CONT.)  
October 31, 2005

NOTE 5 - LEASE AGREEMENT (cont.)

If the accrual of receipts in any year are in excess of expenditures in the communication center, assigned personnel, or lease funds, the Commission shall either refund the excess to the City and County, or the City and County may abate their respective tax levies by the excess. A formal written agreement for the calculation of the rebate was established by the Building Commission in January, 2006. The method of this calculation was to be used for the calculation of the rebate beginning for the year ending October 31, 2005. If, in any year the net rental receipts are insufficient in these funds, the Commission shall consult with the City and County and provide essential services that can be had by the use of such available funds. For the year ended October 31, 2005 net rental receipts were in excess of the funds required. Accordingly, refunds of the excess will be made as follows:

City of Danville, Illinois	46,552
County of Vermilion, Illinois	<u>575,497</u>
	<u>622,049</u>

The amount of the check that the County will receive for the rebate will be reduced by \$100,000. These funds will be retained by the Danville Public Building Commission and transferred to the Assigned Personnel Fund as requested by Vermilion County in a letter dated September 14, 2005.

In regard to the capital improvements and maintenance funds, the following provisions are used to determine the amount of excess rental receipts to be refunded:

Maintenance Fund - rental receipts are to be set aside up to a minimum of \$200,000. These funds are to provide for maintaining, repairing or replacing machinery, and other improvements upon the premises.

Capital Improvements Fund - Rental receipts are set aside for the purpose of making either capital improvements or repairs to the premises. Excess rental receipts may be refunded in accordance with the provisions for authorizing expenditures; however, the refund may not exceed \$100,000 a year. The County and City must approve joint and identical resolutions in order for the Commission to have authority to authorize expenditures from this fund.

NOTE 7 - ILLINOIS MUNICIPAL RETIREMENT FUND

DEFINED BENEFIT PENSION PLAN

The Danville Public Building Commission's (EMPLOYER'S) defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly.

IMRF issues a financial report that includes financial statements and required supplementary information. The report may be obtained at [www.imrf.org/pubs/pubs-homepage.htm](http://www.imrf.org/pubs/pubs-homepage.htm) or by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Employees participating in IMRF are required to contribute 4.5% of their annual covered salary. The member rate is established by state statute. The Danville Public Building Commission is required to contribute at an actuarially determined rate. The employer rate for calendar year 2004 was 1.01% of payroll. The employer contribution requirements are established and may be amended by the IMRF Board of Trustees. IMRF's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis (overfunded liability amortized on open basis). The amortization period at December 31, 2004 was 5 years.

For December 31, 2004 the EMPLOYER'S **annual pension cost** of \$11,986 was equal to the EMPLOYER'S required and actual contributions. The required contribution was determined as part of the December 31, 2002 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions included (a) 7.50% investment rate of return (net of administrative expenses), (b) projected salary increases of 4.00% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 11.6% per year depending on age and service, attributable to seniority/merit, and (d) post-retirement benefit increases of 3% annually. The actuarial value of IMRF assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period with a 15% corridor. The assumptions used for the 2004 actuarial valuation were based on the 1999-2001 experience study.

12/31/95	1,946,133	1,689,028	(257,105)	115.22%	843,425	0.00%

On a market value basis, the actuarial value of assets as of December 31, 2004 is \$3,557,872. On a market basis, the funded ratio would be 110.40%.

Digest of Changes

The actuarial assumptions used to determine the actuarial accrued liability for 2004 are based on the 1999-2001 Experience Study.

The principal changes were:

- Fewer members are expected to take refunds early in their career.
- For Regular members, fewer normal and early retirements are expected to occur.

DANVILLE PUBLIC BUILDING COMMISSION  
NOTES TO COMBINED FINANCIAL STATEMENTS (CONT.)  
October 31, 2005

NOTE 8 - DEFERRED COMPENSATION PLAN

During fiscal 1993 the Commission adopted a deferred compensation plan under section 457 of the Internal Revenue Code. This Plan allows employees to defer part of their compensation. The Commission is not required to make any contributions into the Plan. Contributions by participants are administered by a third-party agent and held in trust. They are not available to the general creditors of the Commission. At September 30, 2005, Commission employees had \$211,228 invested in this plan.

NOTE 9 - OTHER RELATED PARTY ACTIVITY

Construction Management agreements - The Commission has entered into several construction management agreements with related government entities. As part of these agreements, the Commission furnishes two of its employees to act as Construction Manager and Project Director for certain construction projects. In consideration of this, the related entities reimburse the Commission for the cost of those employees' compensation. During fiscal year ended October 31, 2005, the Commission was involved in the following construction management agreement:

Public Library - The Commission received \$6,363 in reimbursement from the Danville Public Library for salaries. The Danville Public Building commission paid for work performed at the Library.

911 Contract - The Commission entered into an intergovernmental agreement with Vermilion County Emergency Telephone System Board (ETSB), a governmental agency, for the operation of 911 Emergency Telephone System. The Commission operates and maintains a Joint Communication Telephone System. The intergovernmental agreement was set up to coordinate the efforts of the two entities, allocate resources and personnel, and provide for the proper function of both systems as required by state statutes. The Commission appointed one of its employees to act as the Communication Director. ETSB also appointed that individual as the 911 Director, therefore, ETSB reimburses the Commission for a portion of his employment costs. In fiscal year 2005, \$19,273 of employment costs was reimbursed to the Commission.

ETSB also paid the Commission rent of \$71,129 annually for their usage of space in the Public Safety Building.

NOTE 10 – LITIGATION

The Danville Public Building Commission filed an Interpleader Suit on December 14, 2005, with the City of Danville and County of Vermilion concerning the October 31, 2004 rebate. The terms of the Complaint is essentially asking that the Court determine whether the City of the County is entitled to the rebate in the amount of \$223,803 for the year ending October 31, 2004.
