## INDEPENDENT AUDITORS' REPORT

Vermilion County Board  
Vermilion County, Illinois

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Vermilion County as of and for the year ended November 30, 2019, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Vermilion County as of November 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, the schedule of changes in net pension liability and related ratios, the schedule of employer contributions, and the schedule of changes in total OPEB liability and related ratios, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The County has omitted *management's discussion and analysis* that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical contest. Our opinion on the basic financial statements is not affected by this missing information.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Vermilion County's basic financial statements. The combining and individual nonmajor fund financial statements, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is also presented for purposes of additional analysis and is not a required part of the basic financial statements.

Vermilion County Board  
Vermilion, Illinois

The combining and individual nonmajor fund financial statements, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated July 15, 2020, on our consideration of Vermilion County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Vermilion County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Vermilion County's internal control over financial reporting and compliance.

Net change in fund balances - total governmental funds		\$ (327,574)
Amounts reported for governmental activities in the statement of activities are different because:		
Revenues that are not available to pay current obligations are reported as deferred inflows of resources in the fund financial statements, but they are presented in the statement of activities. The effect of the change from prior year is a reconciling item.		
		(54,857)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported in the governmental funds.		
Change in Total OPEB Liability and Deferred Items	\$ (137,606)

Change in Compensated Absences	1,561	
Total Expenses on Noncurrent Resources	<u>(1,195,402)</u>	(1,195,402)
The effect of capital contributions is to increase net position. Governmental funds report purchases of capital assets as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets.		
Capital Expenditures	901,879	
Depreciation, Net of Disposals	<u>(1,666,637)</u>	
Excess of Capital Expenditures over Depreciation and Other Transactions		(764,758)
Net effect of various miscellaneous transactions involving capital assets, such as sales and disposals, is to decrease net assets		(231,462)
Long-term liabilities, including capital lease payments, are not due and payable in the current period and therefore are not reported in the funds:		
Principal repayments on capital lease		169,185
Internal service funds are used by management to charge the costs of insurance to individual funds. The net revenue (expenditure) of internal service funds is reported with governmental activities		<u>(147,477)</u>

**VERMILION COUNTY, ILLINOIS**  
**NOTES TO FINANCIAL STATEMENTS**  
**NOVEMBER 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Vermilion County, Illinois (County) is a municipality located in Central Illinois. Revenues are substantially generated as a result of taxes assessed and allocated to the County (examples would be property, sales, income, and motor fuel taxes), charges for services performed and governmental grants. Revenues are therefore dependent on the economy within the territorial boundaries of the County and nearby surrounding area and the appropriations of entitlements at the state and federal government level. Taxable industry within the area is primarily manufacturing and retail. The surrounding area has a substantial agricultural base.

The following is a summary of the more significant accounting policies of the County.

**Reporting Entity**

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

The County's reporting entity includes the County's governing board and all related organizations for which the County is financially accountable.

The County is not aware of any entity which would be financially accountable to the County to the extent that they would be considered a component unit of the entity.

**Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and proprietary funds are reported as separate columns in the fund financial statements.

**VERMILION COUNTY, ILLINOIS**  
**NOTES TO FINANCIAL STATEMENTS**  
**NOVEMBER 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Measurement Focus, Basis of Accounting, and Basis of Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied for budgetary purposes. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. The County considers all revenues available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The accounts of the County are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fund balance/net position, revenues, and expenditures/expenses.

Governmental Funds are those through which governmental functions of the County are financed. The acquisition, use, and balances of the County's expendable resources and the related liabilities are accounted for through governmental funds. The County reports the following major governmental funds:

**General Fund** - The General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

**Public Safety Building Rent Fund** - This special revenue fund accounts for its share of the activities of the Public Safety Building.

**Law Enforcement Fund** - This special revenue fund accounts for the revenue the County receives to help support public safety.

**NOTES TO FINANCIAL STATEMENTS**  
**NOVEMBER 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)**

Proprietary funds are used to account for those County activities that are similar to those often found in the private sector. The measurement focus is upon determination of net income, financial position, and changes in financial position.

The County reports the following major proprietary fund:

**Solid Waste Management** – This fund accounts for the landfill surcharge fees assessed.

In addition to the General Fund mentioned above, the County uses the following fund types:

**Governmental Fund Types**

**Special Revenue Funds** – Special Revenue Funds are used to account for the proceeds of specific revenue sources requiring separate accounting because of legal or regulatory provisions or administrative action.

**Capital Projects Funds** – The Capital Projects Funds are used to account for the County's purchase or construction of capital facilities or capital equipment which are not financed by other funds.

**Proprietary Fund Types**

**Internal Service Funds** – The Internal Service Funds are used to account for the financing of goods or services provided by one department or agency or other departments or agencies of the government, on a cost-reimbursement basis.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

**Fiduciary Fund Types**

**Agency Funds** – Agency funds are used to account for assets held by the County in a trustee capacity or as an agent for individuals, private organizations, and other governmental units.

**VERMILION COUNTY, ILLINOIS**  
**NOTES TO FINANCIAL STATEMENTS**  
**NOVEMBER 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**BUDGET AND APPROPRIATIONS**

The County adopts an annual budget and appropriation ordinance in accordance with Chapter 35 of the Illinois Compiled Statutes. The budget covers the fiscal year ending November 30, and is available for public inspection at least 15 days prior to final adoption. All appropriations cease with the close of the fiscal year. The budget document is prepared for all budgetary funds using the modified accrual basis for projecting expenditures and revenues.

Once the County budget has been adopted, no further appropriations shall be made during the year, except in the event of an immediate emergency at which time the County Board by a two-thirds vote makes appropriations in excess of those authorized in the budget.

**USE OF ESTIMATES**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**POOLED CASH**

The County maintains pooled cash accounts for different fund groups which are used to account for all cash and investment transactions of that group. Monthly interest income of each pool is distributed to the individual funds based on their cash balance in the pool during that period.

**INVESTMENTS**

Investments consist of money market funds and certificates of deposit with maturities of less than one year (recorded at cost which approximates fair value).

**PREPAID ITEMS**

The County's lease agreement covers the period November 1 – October 31. The County makes one payment in the month prior to the start of the lease period. The prepaid items represent costs applicable to future fiscal periods and the expenditure is recognized ratably over the period of the lease. Additionally, at November 30, 2019 the County has reported a prepaid asset of \$4,799,396 which represents the lease payment made in October 2019 for the lease period of November 1, 2019 through October 31, 2020. See Note 5 for further disclosure related to the lease agreement.

**VERMILION COUNTY, ILLINOIS**  
**NOTES TO FINANCIAL STATEMENTS**  
**NOVEMBER 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**CAPITAL ASSETS**

Capital assets, which include property, equipment, and infrastructure assets, (i.e., roads, bridges, and similar items), are reported in the government-wide financial statements. Capital assets are defined by the County as tangible and intangible assets that are used in operations and that have useful lives that extend beyond a single reporting period. Capital assets are reported in the statement of net position at historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives and capitalization thresholds are as follows:

Asset Type	Useful Life (In Years)
Equipment	7
Vehicles	5 to 7
Buildings	40
New Infrastructure	40
	Capitalization Threshold
Equipment	\$ 5,000
Buildings and Improvements	10,000
Infrastructure Assets	150,000

**IMPAIRMENT OF LONG-LIVED ASSETS**

In accordance with GASB Statement, “Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries,” management evaluates prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. A capital asset is generally considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstance is outside the normal life cycle of the capital asset. No impairment losses were recognized in the year ended November 30, 2018.

**LONG-TERM LIABILITIES**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position including discretely presented component units.

The proprietary funds are accounted for on the accrual basis. This means that all assets and all liabilities (whether current or noncurrent) associated with their activities are included on the statement of net position of these funds.

**VERMILION COUNTY, ILLINOIS**  
**NOTES TO FINANCIAL STATEMENTS**  
**NOVEMBER 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**OTHER POSTEMPLOYMENT BENEFITS LIABILITY (OPEB LIABILITY)**

In the government-wide and proprietary funds statements of net position, liabilities are recognized for the County's total OPEB liability as determined by an actuarial review of the healthcare coverage purchased by retirees to continue participation in the County's health plan. OPEB expense is recognized immediately for changes in the OPEB liability resulting from current year service cost, interest on the total OPEB liability and changes of benefit terms or actuarial assumptions.

**ACCUMULATED PAID TIME OFF**

Accumulated paid time off is not accrued in governmental funds. The liability of the County for accumulated paid time off is recorded in the government-wide financial statements.

**DEFERRED OUTFLOWS OF RESOURCES**

The County reports decreases in net position or fund equity that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary funds statement of net position or governmental fund balance sheet. The County has deferred outflows of resources related to the net pension asset and total OPEB liability.

**DEFERRED INFLOWS OF RESOURCES**

The County's government-wide and proprietary funds statement of net position or governmental fund balance sheet report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position of fund equity that applies to a future period. The County will not recognize the related revenue until a future event occurs. The County has two types of items which occur related to revenue recognition. The first occurs because property tax receivables are recorded in the current year, but the revenue will be recorded in the subsequent year, for which the taxes are levied. The second type of deferred inflow of resources occurs because governmental fund revenues are not recognized until available (collected not later than 60 days after the end of the County's year) under the modified accrual basis of accounting. In addition, the County has deferred inflows of resources related to the net pension asset and total OPEB liability.

**PENSIONS**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Municipal Retirement Fund (IMRF) and additions to/deductions from IMRF's fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**VERMILION COUNTY, ILLINOIS**  
**NOTES TO FINANCIAL STATEMENTS**  
**NOVEMBER 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**FUND BALANCE / NET POSITION**

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

**Nonspendable** – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The County has prepaid expenses and advances to other funds as nonspendable fund balances.

**Restricted** – This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The County as classified state and federal grants as being restricted because their use is restricted by granting agencies. The County has also classified property, replacement, and motor fuel taxes as being restricted because of their use is restricted by state laws and regulations.

**Committed** – This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed.

**Assigned** – This classification includes amounts that are constrained by the County's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board or through the Board delegating this responsibility to the County Board Chair or Treasurer or other official. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.

**Unassigned** – This classification includes the residual fund balance for the General Fund and includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The County would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

**Net Position**

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position invested in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net positions are reported as restricted when there are limitations imposed on their use through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments with the remaining net position being unrestricted.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**PROPERTY TAXES**

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on or before the last Monday in December and are intended to finance the County's new fiscal year beginning December 1. The combined tax rate of the County for the year ended November 30, 2019 was \$1.421 per \$100 of assessed valuation. For budgetary purposes, taxes are recognized as revenue in the period in which they are intended to finance.

Property in Vermilion County is assessed by the Vermilion County Assessor. The values are adjusted by various percentages depending upon the type of property (residential, commercial, etc.). The assessed values are equalized by the Illinois Department of Revenue to ensure uniformity of property assessments throughout the state. The Vermilion County Clerk computes the annual tax rate by dividing the levy into the equalized value of each taxing unit. The Clerk then computes the tax for each parcel by multiplying the aggregate rates of all the taxing units having jurisdiction over the parcel by the equalized value. The tax amounts by parcel are forwarded to the Vermilion County Collector.

Property taxes are collected by the Vermilion County Collector who remits to the taxing units their respective shares of the collection. Taxes levied in one year become due and payable in two installments during the following year in July and September.

Based on collection histories, the County has provided at November 30, 2019 an allowance for uncollectible real property taxes equivalent to 1% of the current year's levy.

**NOTE 2 - CASH AND INVESTMENTS**

The County has adopted formal investment policies and procedures as recommended by the County Treasurer. This investment policy applies to the investment activities of all funds of the County of Vermilion and all funds under the control of the County Treasurer as County Collector. The County Treasurer may invest in any type of security allowed under Illinois law and listed in the Illinois Revised Statutes. All investments shall be selected on the basis of competitive bids. Investments made outside the geographical boundaries of Vermilion County will always be made at a higher interest rate than could be received within those boundaries. All investments must be kept within the geographical boundaries of the state of Illinois. The carrying amount of the County's bank deposits, including certificates of deposits and money market funds was \$33,810,202 and the respective bank balances totaled \$37,221,415. Included in the carrying amount of the County's bank deposits are certificates of deposits totaling \$506,242. Also included in the County's carrying amount of bank deposits are money market funds totaling \$14,447,110.

**Interest Rate Risk** – the risk that changes in interest rates will adversely affect the fair value of an investment. The County Treasurer realizes there is a time value to money; therefore, idle cash may be invested for a period of one day or in excess of a year, depending on when the money is needed. The main objective of the Vermilion County Treasurer's cash management procedure is to comply with Illinois Revised Statutes. When deposits of monies become collected funds and are not needed for immediate disbursement, they shall be invested within two working days at prevailing rates or better in accordance with state law.

**VERMILION COUNTY, ILLINOIS**  
**NOTES TO FINANCIAL STATEMENTS**  
**NOVEMBER 30, 2019**

**NOTE 2 - CASH AND INVESTMENTS (CONTINUED)**

**Interest Rate Risk (Continued)**

The County Treasurer's investment portfolio shall remain sufficiently liquid to meet all operating requirements which may be reasonably anticipated. All securities held as of November 30, 2019 mature within one year.

**Custodial Credit Risk** - the risk that a government will not be able to cover deposits if the depository financial institution fails or will not be able to recover collateral securities that are in the possession of an outside party. It shall be the policy of the Vermilion County Treasurer to require collateral on all funds. When collateral is required, it must be pledged at 100%. As of November 30, 2019, all of the County's deposits were covered by insurance or collateral.

**NOTE 3 - INTERFUND ACTIVITY**

Individual fund interfund receivable and payable (due to/due from other funds) at November 30, 2019 were as follows:

	Due from Other Funds	Due to Other Funds
Major Governmental Funds:		
General Fund	\$ 1,688,013	\$ 791,817
Public Safety Fund	-	286,146

**Juvenile Detention Center lease**

In 1999, the County entered into a lease agreement with the Danville Public Building Commission, wherein the Commission constructed a juvenile detention center. The terms of the lease have been restructured since then, with the most recent lease being for a period beginning on November 1, 2017 and ending on November 1, 2026. At the end of the lease, the title to the site and all remaining assets will revert back to the County. Sales tax is collected in the Law Enforcement Special Revenue Fund to provide for payments on the lease. The \$5,000,000 Juvenile Detention Center lease with the Danville Public Building Commission is due in annual installments as shown below through November 1, 2026, including interest at varying rates from 3.85% to 4.1%. As of November 30, 2019, the total cost is \$5,524,902 and the total accumulated depreciation is \$4,558,044.

The following is a schedule of the minimum lease payments required under the remaining capital lease:

Fiscal Year	Principal	Interest	Total Debt Service
2020	\$ 177,645	\$ 82,901	\$ 260,546
2021	296,075	73,426	369,501

**NOTE 6 - LEASE AGREEMENTS**

**Public Safety Building lease**

A lease agreement was entered into as of October 8, 1984 wherein the Danville Public Building Commission agreed to lease the Public Safety Building to the City of Danville and the County for their joint use. This agreement includes the operations of a Joint Communications Center whose costs are divided and apportioned between the County and City. The agreement provides also for the salaries and fringe benefits of "leased" employees whose costs are apportioned solely to the County. Several extension or addendums to the original lease have been entered into, with the most recent as of February 29, 2016 and runs through October 31, 2019. The lease payment required for fiscal year 2020 totals \$5,126,613.

If, in any year, the rental payments are in excess of funds required, the Danville Public Building Commission refunds the excess to the City and County. If, in any year, the rental payments are insufficient, the Commission shall provide only those services that it can with whatever funds are available.

Lease expense for the year ended November 30, 2019 was \$5,294,300.

**NOTE 7 - ILLINOIS MUNICIPAL RETIREMENT FUND**

**Plan Description**

The County's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to Plan members and beneficiaries. The County's Plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the state of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information (RSI). That report may be obtained on-line at [www.imrf.org](http://www.imrf.org).

**Benefits Provided**

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years or service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amounts on January 1 every year after retirement.

**Benefits Provided (Continued)**

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount

**Employees Covered by Benefit Terms** – As of December 31, 2018 the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	411
Inactive Plan Members Entitled to but Not Yet Receiving Benefits	381
Active Plan Members	303
Total	1,095

**Contributions**

As set by statute, the County’s Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The County’s annual contribution rate for calendar year 2018 and 2019 was 7.56% and 3.91%, respectively. For the fiscal year 2019, the County contributed \$530,895 to the Plan. The County also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF’s Board of Trustees, while the supplemental retirement benefits rate is set by statute.

**Sheriff’s Law Enforcement Personnel**

**Plan Description** - The County’s defined benefit pension plan, a multiemployer agent plan, for Sheriff’s Law Enforcement Personnel employees provides retirement and disability benefits, post retirement increases, and death benefits to Plan members and beneficiaries. The County’s Plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the state of Illinois. **NOTE 7 - ILLINOIS MUNICIPAL RETIREMENT FUND (CONTINUED)**

The following information applies to all three IMRF plans.

Net Pension Liability – The County’s net pension liability for IMRF was measured as of December 31, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions – The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	5-Year Smoothed Market; 20% Corridor
Price Inflation	2.75%
Salary Increases	3.75% to 14.50%, Including Inflation
Investment Rate of Return	7.50%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011 to 2013.
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP- 2014 Employee Mortality Table with adjustments to match current IMRF experience.

Expected Return on Pension Plan Investments – The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	37.0 %	7.2 %
International Equity	18.0	7.3
Fixed Income	28.0	3.8
Real Estate	9.0	6.3
Alternative Investments	7.0	5.7
Cash Equivalents	1.0	2.5
Total	<u>100.0 %</u>	

Discount Rate – A single discount rate of 7.25% was used to measure the total pension liability (asset). The projection of cash flow used to determine this single discount rate assumed that the Plan members’ contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The single discount rate reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and (2) the tax- exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was not blended with the AA rated general obligation bond index at December 31, 2017 to arrive at the discount rates used to determine the total pension liability (asset).

For the purposes of the most recent valuation, the expected rate of return on the Plan investments is 7.25%, the municipal bond rate is 3.71% and the resulting single discount rate is 7.25%.

The following disclosures are required for Vermilion County's joint ventures.

**Danville Public Building Commission**

The Danville Public Building Commission was organized under the provisions of the "Public Building Commission Act of the State of Illinois" to enable the erecting, equipping, and providing of modern public buildings to space and house the various branches, departments, and agencies of government in the County Seat of Vermilion County, Illinois. Separate financial report may be obtained from the Danville public Building Commission.

The officials of the Danville Public Building Commission are appointed by the City of Danville, Danville Sanitary District, Danville School District #118, and Vermilion County.

Through the appointment of one commission official, the County has indirect control over the Commission's budgeting and financing. However, all capital improvement projects financed by the Commission must be approved by the City of Danville, Vermilion County, and the Public Building Commission.

**Vermilion County Emergency Telephone System Board**

The Vermilion County Emergency Telephone System Board was established under an intergovernmental agreement between the County, the City of Danville, and the City of Hoopston. This agreement was pursuant to the state of Illinois enacting the Emergency Telephone System Act, Chapter 134, and Section 31 - 46 of the Illinois Revised Statutes. The Vermilion County Emergency Telephone System Board is a joint board established specifically for the purpose of providing and maintaining emergency telephone systems.

Vermilion County provides bookkeeping and investing services at no cost to the Emergency Telephone System Board.

**NOTE 11 - SELF-FUNDED INSURANCE**

The County is self-funded for workers' compensation insurance coverage which is accounted for in a separate internal service fund (Liability Insurance Fund). The coverage is administered by an independent company. The County's risk retention is \$400,000 per individual per claim up to \$2,000,000 in aggregate over a one-year period. Actual claims paid in fiscal year 2019 were \$147,068.

The Standards require that a liability for claims be reported if the liability is both probable and can be reasonably estimated. The liabilities for unpaid claims are determined by the independent Plan administrator. The estimated claims payable for claims reported at November 30, 2019 was \$139,861. The liability for claims incurred but not reported was estimated to range between \$112,655 and \$142,185. Based on this range, the County reflected a total liability for unpaid claims in the accompanying financial statements of \$262,461. The liability has been established in the General Liability Insurance Fund.

Changes in the balances of claims liabilities during fiscal year 2019 were as follows:

Claims Liability - Beginning Balance	\$ 189,324
Claims Paid, Incurred Prior to December 2019	(147,068)
Increase in Claims Liability for Claims Incurred Prior to December 2019	<u>220,205</u>
Claims Liability - Ending Balance	<u><u>\$ 262,461</u></u>

The County is self-insured for group health insurance. The coverage is administered by an independent company. The County's risk retention is \$50,000 per individual claim, with a maximum specific benefit of \$1,000,000 per person in excess of specific deductible. A liability for unpaid claims has been established in the Health Insurance Internal Service Fund. This liability is equal to claims submitted and not paid prior to year-end and an estimate of claims incurred and not yet submitted based on payment data. The County carries insurance to limit their liability for excessive claims. Estimated recoveries on unsettled claims are deducted from the liability for unpaid claims. The County believes the estimated liability for unpaid losses and loss adjustment expense is sufficient to cover the ultimate net cost of incurred claims. However, such reserves are based on estimates and the ultimate liability may be greater or less than the amounts estimated. The methods used to calculate such estimates and establish the resulting liabilities are continually reviewed, and any adjustments are reflected in current earnings. The liability is included in accounts payable in the Internal Service Funds.

The claims reserves are based on estimates and the ultimate liability may be greater or less than the amounts estimated. The methods used to calculate such estimates and establish the resulting liabilities are continually reviewed, and any adjustments are reflected in current earnings.

**NOTE 12 - OTHER POSTEMPLOYMENT BENEFITS**

*Plan Description.* In addition to providing the pension benefits described in Note 7, the County provides postemployment health care benefits (OPEB) for retired employees through a single employer defined benefit plan (Retiree Healthcare Program). The benefits, benefit levels, employee contributions, and employer contributions are governed by the County and can be amended by the County through its personnel manual and union contracts. The Plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the Plan. The Plan does not issue a separate report. The activity of the Plan is reported in the County's governmental and business-type activities.

*Benefits Provided.* The County provides continued health insurance coverage at the active employee rate to all eligible employees in accordance with Illinois statutes, which creates an implicit subsidy of retiree health insurance. To be eligible for benefits, an employee must qualify for retirement under one of the County's retirement plans. Upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the retiree can choose to not participate in the Plan or continue under the County's Plan at a Medicare Supplement rate.

*Funding Policy.* The County is not required to and currently does not advance fund the cost of benefits that will become due and payable in the future. Active employees do not contribute to the Plan until retirement.

Premium cost sharing arrangements vary depending on the bargaining unit and date of retirement. Qualified retirees pay a percentage of the premium cost for single and dependent coverage based on Medicare status and family status.

*Actuarial Methods and Assumptions.* The County's OPEB liability was measured as of November 30, 2019, and the total OPEB liability was determined by an actuarial valuation as of December 1, 2017.

The discount rate used to measure the total OPEB liability was 2.77%. The discount rate is based on The Bond Buyer 20-Bond GO Index.

*Participant Data.* At November 30, 2019, membership consisted of:

Active Plan Members	190
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	9
Total	<u>199</u>

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**  
**NOVEMBER 30, 2019**

**BASIS OF ACCOUNTING** – The County’s budget is prepared on the modified accrual basis for all budgeted funds as presented in the Required Supplementary Information.

The County does not budget for the Motor Fuel Tax Fund, therefore no statement of revenues, expenditures, and changes in fund balance — budget and actual is prepared.

**SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATIONS OF THE 2018 CONTRIBUTION RATE — IMRF**

**Valuation Date:**

Notes: Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

**Methods and Assumptions Used to Determine 2018 Contribution Rates:**

<i>Actuarial Cost Method:</i>	Aggregate entry age normal
<i>Amortization Method:</i>	Level percentage of payroll, Closed
<i>Remaining Amortization Period:</i>	25-year closed period
<i>Asset Valuation Method:</i>	Five-year smoothed market; 20% corridor
<i>Wage Growth:</i>	3.5%
<i>Price Inflation:</i>	2.75%, approximate; No explicit price inflation assumption is used in this valuation.
<i>Salary Increases:</i>	3.75% to 14.50%, including inflation
<i>Investment Rate of Return:</i>	7.50%
<i>Retirement Age:</i>	Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2014 valuation pursuant to an experience study of the period 2011 to 2013.
<i>Mortality:</i>	For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that was applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

## **SINGLE AUDIT REPORTS**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Vermilion County Board  
Vermilion County, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Vermilion County, Illinois, as of and for the year ended November 30, 2019, and the related notes to the financial statements, which collectively comprise the Vermilion County, Illinois' basic financial statements, and have issued our report thereon dated July 15, 2020.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Vermilion County, Illinois' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Vermilion County, Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the Vermilion County, Illinois' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as item 2019-001 that we consider to be a material weakness.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Vermilion County, Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Vermilion County Illinois' Responses to Findings**

The Vermilion County, Illinois' response to the finding identified in our audit are described in the accompanying schedule of findings and questioned costs. The Vermilion County, Illinois' response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR  
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE  
REQUIRED BY THE UNIFORM GUIDANCE**

Vermilion County Board  
Vermilion County, Illinois

***Report on Compliance for Each Major Federal Program***

We have audited the Vermilion County, Illinois' compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Vermilion County Illinois' major federal programs for the year ended November 30, 2019. The Vermilion County, Illinois' major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of Vermilion County, Illinois' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Vermilion County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Vermilion County Illinois' compliance.

***Opinion on Each Major Federal Program***

In our opinion, the Vermilion County, Illinois complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended November 30, 2019.

**Report on Internal Control Over Compliance**

Management of the Vermilion County, Illinois is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Vermilion County, Illinois' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Vermilion County, Illinois' internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the result of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**VERMILION COUNTY, ILLINOIS**  
**NOTE TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**YEAR ENDED NOVEMBER 30, 2019**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal award activity of the County under programs of the federal government for the year ended November 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County.

**Basis of Accounting and Cost Principles**

Expenditures reported in the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, Cost Principles for State and Local Governments, or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

**Nonmonetary Assistance**

The Vermilion County Health Department receives commodities for the immunization program through the Illinois Department of Public Health (IDPH). During fiscal year 2019 these commodities were valued at \$87,287 (CFDA 93.268). This amount is included in the accompanying schedule as the Immunization Grant.

The Vermilion County Health Department issues food instruments to participants in the WIC Program that are used to purchase food. For the year ended September 30, 2019, these food instruments were valued at \$804,527 (CFDA 10.557). This amount is included in the accompanying schedule as part of the WIC Grant.

The County did not receive any federally provided insurance or federal loan or loan guarantees.

**De Minimis Cost Rate**

The County has elected to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

This information is an integral part of the accompanying schedule.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
YEAR ENDED NOVEMBER 30, 2019**

**Section II – Financial Statement Findings**

**FINDING NO. 2019-001 – ANNUAL FINANCIAL REPORTING UNDER GENERAL  
ACCEPTED ACCOUNTING PRINCIPALS (GAAP) AND  
ADJUSTMENTS (MATERIAL WEAKNESS IN INTERNAL  
CONTROL OVER FINANCIAL REPORTING)**

*Criteria:* Management is responsible for establishing and maintaining internal controls and for the fair presentation of the financial statements including the related disclosures, and necessary adjustments, in conformity with accounting principles generally accepted in the United States of America (GAAP).

*Condition:* The County does not have an internal control policy in place over annual financial reporting, including any necessary adjustments, that would enable management to prepare its annual financial statements and related footnote disclosures in a manner that is complete and presented in accordance with GAAP.

*Context:* The County Board and management have informed us that they do not have an internal control policy in place over the annual financial reporting, including necessary adjustments, and that they do not have the necessary staff capacity to prepare the annual financial statements including footnote disclosures.

*Effect:* The potential exists that a material misstatement of the annual financial statements including adjustments could occur and not be prevented or detected by the entity's internal controls.

*Cause:* The entity relies on the audit firm to prepare the annual financial statements and related footnote disclosures, including any necessary adjustments to accrual basis. However, they have reviewed and approved the annual financial statements and the related footnote disclosures.

*Repeat Finding:* The finding is a repeat of a finding in the immediately prior year. Prior year finding number was 2018-001.

*Recommendation:* The County should continue to evaluate their internal staff capacity to determine if an internal control policy over the annual financial reporting is beneficial.

*Views of Responsible Officials:* There is no disagreement with the finding.

**Section III – Findings and Questioned Costs**

Our audit did not disclose any matters required to be reported in accordance with 2 CFR 200.516(a).
