COUNTY CLERK
VERMILION CO. IL.

Illinois Environmental Protection Agency

Public Notice

Proposed Significant Modification of the Clean Air Act Permit Program

Permit

Quaker Manufacturing, LLC in Danville

Quaker Manufacturing, LLC has requested that the Illinois Environmental Protection Agency (Illinois EPA) revise the Clean Air Act Permit Program (CAAPP) permit regulating air emissions from its food manufacture facility located at 1703 East Voorhees Street in Danville. The significant modification consists of changing the monitoring and reporting requirements from weekly to weekly when in operation. Changes in the permit may be found in Section 4.1 in the Statement of Basis prepared for this draft permit. Based on its review of the application, the Illinois EPA has made a preliminary determination that the application meets the standards for issuance and has prepared a draft permit for public review.

The Illinois EPA is accepting comments on the draft permit. Comments must be received by 11:59PM on March 26, 2021. If sufficient interest is expressed in the draft permit, a hearing or other informational meeting may be held. Requests for information, comments, and questions should be directed to Cassandra Metz, Office of Community Relations, Illinois Environmental Protection Agency, 1021 N. Grand Ave. East, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/785-7491, TDD phone number 866/273-5488 or at Cassandra.Metz@Illinois.gov.

The repositories for the draft permit documents will be made available at the Illinois EPA's offices at 2125 South First Street in Champaign, 217/278-5800 and 1021 N. Grand Avenue East in Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the draft permit and other documents may also be available at <http://bit.ly/2SiUSql>. Copies of the documents will be made available upon request.

The CAAPP is Illinois' operating permit program for major sources of emissions, as required by Title V of the Clean Air Act (Act). The conditions of CAAPP permits are enforceable by the public, as well as by the USEPA and Illinois EPA. In addition to implementing Title V of the Act, CAAPP permits may contain "Title I Conditions," i.e., conditions established under the permit programs for new and modified emission units, pursuant to Title I of the Act. The permit contains no T1 conditions that are being newly established or revised by this application.

The facility is located in an area of Environmental Justice concern. More information concerning Environmental Justice may be found at <https://www2.illinois.gov/epa/topics/environmental-justice/Pages/default.aspx>.

The beginning of this public comment period also serves as the beginning date of the USEPA 45 day review period, provided the USEPA does not seek a separate proposed period.
