Illinois Environmental Protection Agency

Cathy Johnson
COUNTY CLERK
VERMILION CO. IL.

Public Notice
Proposed Renewal of the Clean Air Act Permit Program Permit
Aerosols Danville Inc. in Danville

Aerosols Danville Inc. has requested that the Illinois Environmental Protection Agency (Illinois EPA) renew the Clean Air Act Permit Program (CAAPP) permit regulating air emissions from its facility located at 1 West Hegeler Lane in Danville. The facility formulates and packages liquid and aerosol consumer products on a contract basis. The multitude of products covers a diverse range including household cleaning compounds and personal care items such as deodorants and hair sprays. Based on its review of the application, the Illinois EPA has made a preliminary determination that the application meets the standards for issuance and has prepared a draft permit for public review.

The Illinois EPA is accepting comments on the draft permit. Comments must be received by 11:59 PM on May 7, 2021. If sufficient interest is expressed in the draft permit, a hearing or other informational meeting may be held. Requests for information, comments, and questions should be directed to Cassandra Metz, Office of Community Relations, Illinois Environmental Protection Agency, 1021 N. Grand Ave. East PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/785-7491, TDD phone number 866/273-5488, Cassandra.Metz@Illinois.gov.

The repositories for the draft permit documents will be made available at the Illinois EPA's offices at 2125 South First Street in Champaign, 217-278-5800 and 1021 North Grand Avenue East, Springfield, 217/782-7027 (please call ahead to assure that someone will be available to assist you). Copies of the draft permit and other documents may also be available at <http://bit.ly/2SiUSq1>. Copies of the documents will be made available upon request.

The CAAPP is Illinois' operating permit program for major sources of emissions, as required by Title V of the Clean Air Act (Act). The conditions of CAAPP permits are enforceable by the public, as well as by the USEPA and Illinois EPA. In addition to implementing Title V of the Act, CAAPP permits may contain "Title I Conditions," i.e., conditions established under the permit programs for new and modified emission units, pursuant to Title I of the Act. The permit contains no T1 conditions that are being newly established or revised by this application.

The facility is located in an area of Environmental Justice concern. More information concerning Environmental Justice may be found at <https://www2.illinois.gov/epa/topics/environmental-justice/Pages/default.aspx>.

The beginning of this public comment period also serves as the beginning date of the USEPA 45 day review period, provided the USEPA does not seek a separate proposed period.
