- 4.7 On or before the commencement of work to be performed by DEVNET pursuant to this Agreement, VERMILION COUNTY shall obtain and have in full operation the following hardware for installation and operation of the DEVNET Property Tax Software System:**

## Hardware Requirements for DEVNET Products

Hardware may be purchased from any third-party vendor of the County's choice. Note that the County or third-party vendor is responsible for deployment of the server(s), and all required third-party software, including the Active Directory/domain and SQL Server, unless DEVNET is contracted to deploy the server hardware and software.

The specifications included in this section assume a single SQL and file server environment. In an environment in which the DEVNET applications do not reside on the SQL server, these specifications apply to the SQL server.

Tax and CAMA analytics in the DEVNET system use the SQL Server R component. Clients up to 50,000 parcels can deploy SQL R in-database as a single server solution. Clients with 50,000-100,000 parcels may be able to deploy a single server SQL R in-database solution depending on usage of the analytics. Clients with more than 100,000 must deploy a separate standalone R server.

**Note:** SQL R in-database cannot be deployed on a SQL cluster; therefore, a client with an SQL cluster must deploy the standalone R server.

If the Application, Image/Document, Sketch files are stored on a separate server or NAS, the file I/O performance of this alternative must be equivalent to the server specifications described in this section.

These specifications are for a physical server to support the DEVNET solution.

### SQL Server Specifications

<b>Minimum: &lt; 100,000 parcels and &lt; 40 users</b>
2.00+ GHz 8-Core Intel Xeon E5 V3 or better processor.
32-64 GB RAM.
300 GB hard drive space in a RAID-1 (mirroring) or RAID-5 array using 10K 6G SAS drives for Windows OS, SQL Server Application, and Virtual Memory file <sup>1,2</sup> .
300-600 GB available hard drive space in a RAID-1.(mirroring) or RAID-5 array using 10K 6G SAS drives for SQL Data, separate array for the SQL log files may be recommended <sup>1,2</sup> .
1 TB available hard drive space in a RAID-1 (mirroring) or RAID-5 array using 10K 6G SAS drives for Application, Image/Document, and Sketch files <sup>1,2</sup> .
Video adapter capable of 1280 x 1024 resolution.
Monitor capable of 1280 x 1024 resolution.
Tape/disk or other backup solution.
High Speed Internet access.
VPN remote access.
Dual Teamed 1 Gb Ethernet adapters.
N+1 redundant cooling <sup>3</sup> .
N+1 redundant power <sup>3</sup> .
Uninterruptible power supply <sup>4</sup> .

Windows Server 2016 Standard Edition.
Microsoft SQL Server 2016 Standard Edition.
MS SQL Native Client/ODBC driver.
.NET Framework 4.7.2.
Microsoft Visual C++ Redistributable for Visual Studio 2017.

<sup>1</sup> The storage space required may vary depending on the number of parcels, images, sketches, and documents. Additionally, the amount of historical information added will impact the storage requirements.

<sup>2</sup> Clients may substitute the recommended RAID levels for alternative RAID levels or storage methods such as a SAN as long as they provide the comparable redundancy and performance. The lowest server specifications provided above will provide sustained disk I/O of 250MB/s based on Windows file read write testing. The highest specifications will provide sustained disk I/O of 450MB/s based on Windows file read write testing.

<sup>3</sup> Clients can substitute an alternative as long as they provide the same level of redundancy.

<sup>4</sup> Clients do not need a UPS specific to this server as long as the solution utilized can provide sufficient runtime and graceful shutdown of the server.

## Server Virtualization

DEVNET does not recommend a virtual Microsoft SQL Database server.

If a virtual environment is utilized, the virtual server must provide the same sustained performance as the recommended physical hardware.

The most critical performance component is disk I/O. The virtual SQL server must provide sustained performance equivalent to the recommended physical server while other guest virtual servers on the same physical server are under load. **Note:** Unlike other applications, SQL is not very tolerant of latency.

The lowest server specifications provided above will provide sustained disk I/O of 250MB/s based on Windows file read write testing. The highest specifications will provide sustained disk I/O of 450MB/s based on Windows file read write testing.

### Printers

DEVNET applications are compatible with most laser printers.

### Receipt/Slip Printer

DEVNET applications can print receipts to either a laser printer or receipt printer. Receipt/slip printers compatible with the DEVNET applications must have a Windows driver that supports the printer's functions and paper type. If slip/check endorsement printing and/or cash drawers will be used, receipt/slip printer driver will need to support slip wait and cash drawer open via settings in the driver. DEVNET applications are compatible with Epson TM-U675 Receipt/Slip/Validation Printer. DEVNET also has successfully worked with other Epson printers that use the EPSON Advanced Print Driver.

### Barcode Reader

Barcode reader must read Code 39 and have the ability to add a prefix and suffix character (depending on the client barcode configuration). Additionally, the barcode reader must be configured to omit carriage return and line feed.

DEVNET recommends the Honeywell Voyager Series bar code reader.

### Document Scanning

The DEVNET application can interface with scanners that provide a fully TWAIN compliant driver.

DEVNET recommends Fujitsu scanners for use with its imaging applications. When imaging is used within DEVNET applications, one or more licenses of Lead Tools imaging toolkit are required. The Lead Tools software can be provided with the installation of DEVNET software applications.

### **Check Scanning**

The DEVNET application can interface with scanners that provide a fully TWAIN-compliant driver. We recommend the Epson Capture One and Epson TM-S2000 scanners.

### **End User Printing Support**

Only printers with drivers support for a terminal server/Citrix environment should be used.
In some cases, other printers can be used; however, this can cause serious problems on the server.
The end user workstation and the server should be using driver version/type. As always, DEVNET recommends that the PostScript driver be used where possible.
Using a consistent printer make and/or model is recommended to ensure that the reports and forms that are printed print consistently across all end users. Using a universal driver for several models of a specific manufacture's printers models usually allows some choice in the printers while ensuring the printed output consistency.

### **Remote Scanning Support**

Currently Windows does not natively support TWAIN scanning.
There are a number of third-party applications that provide this functionality; however, DEVNET has not tested any of these with the DEVNET applications.
Scanned documents and camera photos saved on the end user workstation can be imported into the DEVNET system from an end user workstation drive mapped in the remote session.

Client understands that wEdge is only supported on certain web browsers, and that wEdge may not function for the county or its users unless they are using a supported web browser.

#### **Supported Web Browsers:**

- Google Chrome
- Firefox
- Internet Explorer (Version 11 onward)
- Microsoft Edge

It is the client's responsibility to have supported web browsers installed and operational at the county on or before the commencement of work to be performed by DEVNET, Inc. pursuant to this agreement.

- 5.2 Included in this contract, is pricing for the option to renew for an additional (3) three years. This contract will automatically renew for one (1) year terms unless the County provides DEVNET written notification of intent to terminate at least 90 days in advance of the next anniversary date, upon which date the agreement will then terminate at midnight. ## **ARTICLE 8: Confidentiality and Nondisclosure**

**8.1** DEVNET and VERMILION COUNTY intend to disclose to each other information, which may include confidential information in connection with this Agreement. The term "Confidential Information" shall mean any information or data which is divulged by a Party to the other Party under or in contemplation of this Agreement and which:

- i. If in tangible form or other media that can be converted to readable form, is marked as proprietary, confidential or private when disclosed, or
- ii. If oral or visual, is identified as proprietary, confidential, or private on disclosure and is summarized in a writing so marked and delivered within ten (10) days following such disclosure.

Confidential Information may be either the property of the disclosing Party or information provided to the disclosing Party by a "corporate affiliate" of the disclosing Party or by a third party. For VERMILION COUNTY, "corporate affiliates" means governmental employees, agencies and bodies, and all persons or entities employed or otherwise engaged thereby, provided that persons or entities that are not governmental employees shall be required to execute appropriate nondisclosure agreements before obtaining access to DEVNET's Confidential Information.

**8.2** The confidentiality and nondisclosure provisions set forth herein are intended to encompass the corporate affiliates of the Parties. Consequently, affiliates of either Party may disclose Confidential Information to the other Party or its affiliates, and affiliates of either Party may receive Confidential Information from the other Party or its affiliates. The terms "disclosing Party" and Receiving Party shall include affiliates of the Parties hereto with respect to Confidential Information disclosed or received by the affiliates. The rights and obligations of the Parties shall inure to the benefit of their respective corporate affiliates and may be directly enforced by such affiliates.

**8.3** The receiving Party acknowledges value to the disclosing Party of all Confidential Information. With respect to Confidential information, the recipient shall:

- A. Use the Confidential Information only as required for this Agreement
- B. Restrict disclosure of the Confidential Information solely to those employees of such Party and its affiliates with a need to know and not dispose it to any other person or entity without the prior written consent of the disposing Party;
- C. Advise those employees who gain access to Confidential Information of their obligations with respect to the Confidential Information; and
- D. Make only the number of copies of the Confidential information necessary to disseminate the Information to those employees who are entitled to have access to it, and ensure that all confidentiality notices set forth on the Confidential Information are reproduced in full on such copies.

For the purposes of this Article 8 only, "employees" includes third parties retained for temporary administrative, clerical or programming support. A need to know means that the employee requires the Confidential Information in order to perform his or her responsibilities in connection with this Agreement.

- 8.4 The obligations of Article 8.3 above shall not apply to any Confidential Information that the recipient can demonstrate:
- A. Is or becomes available to the public through no breach of this Agreement;

- 8.5 Except where otherwise required by law or court order, Confidential information, including permitted copies, shall be deemed the property of the disclosing Party. The recipient shall, within twenty (20) days of a written request by the disclosing Party, return all Confidential information, including all copies thereof, to the disposing Party or, if so directed by the disclosing Party, destroy all such Confidential information.
- 8.6 Both Parties agree that an impending or existing violation of any provision of this Agreement would cause the disclosing Party irreparable injury for which it would have no adequate remedy at law, and that the disclosing Party shall be entitled to seek immediate injunctive relief prohibiting such violation, in addition to any other rights and remedies available to it.
- 8.7 All obligations undertaken respecting Confidential information provided hereunder shall survive any expiration or termination of this Agreement.

## ARTICLE 9: Warranty

- 9.1 DEVNET warrants that the DEVNET Property Tax Software System, for the term of this agreement, when used under normal operating conditions, will function in material conformance with the Documentation. VERMILION COUNTY's initial remedy for any failure of the DEVNET Property Tax Software System to so function shall be to contact DEVNET and to have it remedy the failure to function. If DEVNET cannot so remedy that failure within a reasonable time, VERMILION COUNTY shall be permitted to secure its own reasonable remedy for that failure.
- 9.2 The warranties provided in this Agreement do not cover malfunctions or failure caused by:
- A. VERMILION COUNTY's modification or relocation of the VERMILION equipment or software, unless mutually agreed upon in writing prior to each such modification or relocation.
  - B. VERMILION COUNTY's or any third party's abuse, misuse or negligence;
  - C. Power failure or surges, lightning, fire, flood, accident, and other events outside DEVNET's reasonable control;

- 9.4 VERMILION COUNTY expressly acknowledges that systems made available or accessible on or through the Internet or other public networks cannot be guaranteed to be totally secure and that no security measures are impenetrable. If, pursuant to this Agreement, VERMILION COUNTY is licensing or otherwise being provided by DEVNET with any program, product, or component that will be made available or accessible on or through the internet or any other public network (e.g., DEVNET'S "wEdge™" product), VERMILION COUNTY acknowledges that, as between the parties, VERMILION COUNTY (and not DEVNET) is solely and exclusively responsible for deploying, monitoring, and maintaining appropriate security measures, systems, and infrastructure (e.g., firewalls) that reasonably and appropriately protect, and prevent unauthorized access to, VERMILION COUNTY's systems, data, and other resources. Without limiting the provisions of Article 9.3, DEVNET expressly does not represent, warrant, or covenant that any such DEVNET-provided program, product, or component shall be available or accessible on a completely uninterrupted or error-free basis. DEVNET shall not have any obligation or liability with respect to:
- (I) Inaccuracies, errors, or omissions in data or information provided by third parties or that arise in the transmission of any data or information over the internet or other public networks; or
  - (II) Security breaches or incidents that result from causes not under the control of DEVNET.

This obligation to indemnify shall survive termination or expiration of this Agreement.
- 10.3 To the degree that VERMILION COUNTY provides software to DEVNET under this Agreement or otherwise, VERMILION COUNTY warrants that it either owns or has the right to grant DEVNET the usage rights to such software set forth in this Agreement. VERMILION COUNTY shall indemnify and hold harmless DEVNET against and from all claims, demands, suits, actions, judgments, losses, damages and expenses (including reasonable attorneys fees) made against or incurred by DEVNET for infringement of any United States patent, copyright, or trade secret of any third party arising from or relating to the use of software supplied by VERMILION COUNTY pursuant to this Agreement. This indemnity and hold harmless obligation shall not apply, however, to the degree that the alleged infringement arises from or relates to modification of the software by DEVNET or by a third party retained by or under the control of DEVNET.
- 10.4 VERMILION COUNTY shall be solely responsible for insuring that the software development parameters provided to DEVNET by VERMILION COUNTY comply with all applicable laws, statutes and ordinances. VERMILION hereby agrees to indemnify and hold DEVNET, its employees, officers, directors and shareholders, harmless from any and all suits, claims, actions, causes of action, losses, damages or other matters that in any way arise from, in whole or in part, the failure or alleged failure of the DEVNET Property Tax Software System to conform to all applicable laws, statutes and ordinances.

- 13.1 If either Party (hereinafter "Defaulting Party") at any time neglects, fails, or refuses to perform under any of the material provisions of this Agreement, then the other Party may serve upon the Defaulting Party a Notice to Cure said neglect, failure or refusal to perform. The notice to cure shall specify the alleged neglect, failure, or refusal and shall be served as provided for service of notices in paragraph 15.1 herein. If, within fifteen (15) days of the date of service of such notice, the Defaulting Party has not fully cured all the items indicated therein, or presented a plan acceptable to the other Party to cure such items, then upon expiration of said fifteen (15) days, the other Party may, at its option, elect to serve a Notice of Termination as provided in paragraph 13.2 herein below.

This paragraph is subject to Paragraph 15.1: Notices.
