Mr. Rick Johnson, President
Illinois Association of County Engineers
928 South Spring Street
Springfield, Illinois 62704

Dear Mr. Johnson:

Enclosed are the 2022 minimum recommended salaries for the county engineers' salary program, effective January 1, 2022. The minimum recommended salaries of the county engineers are established by a ranking system designed to represent the magnitude of the responsibilities to maintain the county highway system and does not factor years of experience or other personal factors of the respective County Engineer.

In accordance with the agreement memorialized on October 25, 2021 between IDOT and IACE, the salaries have been increased two percent (2%) along with county re-ranking.

There are two items of note that we would like to point out with the re-ranking exercise this year. Pope County became a County Unit Road District, assuming the additional responsibilities of all lane mileage on the township/road district system and as a result increased by 16 ranks. Additionally, due to the impacts on travel from the Coronavirus pandemic, the 2019 average vehicle miles of travel (AVMT) in the counties data was used in lieu of 2020 AVMT.

The joint-county state agreement (BLR 09220) and the annual county board resolution (BLR 09221) are available through the IDOT website and should be used for the county engineers' salaries.

Thank you for your interest in the Illinois transportation system. If you have any questions or need additional information, please contact Stephane B. Seck-Birhame, Local Program Development Engineer at (217) 782-3972.

Please share this information with your members.

Sincerely,
