Committee Members

The Food Handling Regulation Enforcement Act has been amended by changing Section 3.3 (Farmers' Markets) to allow local health departments to establish Farmers' Market Permits for farmers selling frozen meat, frozen poultry, dairy, and eggs at a farmers' market. The product must be grown or raised on the farmer's farm and must be prepackaged at a licensed or permitted processing facility. The amendments go into effect Jan. 1, 2023.

Currently, a VCHD seasonal food service permit is issued to individuals selling frozen meat, frozen poultry, dairy and eggs at farmers' markets. The cost of this permit is \$125.

The new amendment establishes two types of Farmers' Market Permits. The first type of permit is a limited egg Farmers' Market Permit that only covers the sale of eggs. The cost of this permit cannot exceed \$75. The second type is a full Farmers' Market Permit that covers any combination of meat, poultry, dairy, eggs, and frozen foods grown, raised, or produced on or in a licensed or permitted processing facility. The cost of this permit may not exceed \$175.

VCHD is recommending a permit fee of \$50 for the limited egg permit and a permit fee of \$125 for the Full Farmers Market Permit.

As part of establishing permit fees for these Farmers' Market permits, the local health department is required to solicit public input in determining the initial fee for a Farmers' Market Permit by convening at least one public meeting and/or provide public notice and solicit written comments from the public. Before the comment period, all farmers' market operators in the jurisdiction and all existing vendors that are permitted in the local health department's jurisdiction shall be notified using the best efforts of the local health department.

VCHD chose to put out a request for public comment July 15, 2022-August 15, 2022. The week prior to the comment period beginning, all vendors who were currently permitted to sell at a farmers' market were emailed a copy of the notice. VCHD also emailed a copy of the notice to all operators of known farmers' markets (Oakwood, Summer Sounds Market in Danville, and the Danville Farmers Market at Crossroads Church). A market in Hoopeston was contacted but they were not operating this year. Copies of the notice were also placed near the front doors of VCHD.

The operator of the Oakwood market responded to the email, stating they currently do not have vendors selling those products. Jana Messmore, of this Department, went out to the Danville Farmers Market on July 16 to pass out copies to vendors who may not have seen the email and to ensure they didn't have questions. Ashley Polk, of this Department, went to the Summer Sounds Market August 6 since the market operator didn't respond to the email. He stated they don't have anyone selling those products.

The only written comment we received was from the owner of Allison's Farm. This vendor only sells eggs at the farmers' market and thought this permit fee was in addition to the \$125 they were already paying. It was explained their permit fee would actually decrease. Jana followed up with the vendor (husband) at the farmers' market and he stated his wife was good with the change after it was explained it wouldn't be an additional fee.

Below is an outline of the proposed changes to be made to the Vermilion County Ordinance Governing Food Service Sanitation.

Changes noted on pages 14-16.

SECTION 4 – ENFORCEMENT PROCEDURE

4.1 i. 1. Permit fees

* All Class I permit type sections (iv., v., vi., vii.) have been changed to Roman Numerals to keep sequencing consistent

4.1 i. 2 Class II, Seasonal establishments (NO FEE CHANGES)

* Class II Seasonal establishments were somehow inadvertently removed from the ordinance during a previous revision. There are no changes. They're simply added back into the ordinance.

4.1 i. 3. Class III, Temporary establishments (NO FEE CHANGES)

* Each type of temporary establishment was previously listed under individual classes (Class III, Temporary, Class IV, Charity Temporary, Class V Multiple Date Temporary). All temporaries are now under Class III.

4.1 i. 4. Class IV, Farmers Market Permits (NEW PERMIT TYPE)

* Class IV, Farmers Markets Permits. This section adds the two types of permits to the ordinance, along with proposed permit fees. A full explanation of the permit and the permit fees has been included.

RE: Ordinance Amending the Vermilion County Food Sanitation Ordinance

WHEREAS, the Vermilion County Health Department is required to update its food sanitation ordinance to conform with State statute; and,

WHEREAS, such modifications are incorporated herein and attached hereto as Exhibit "A"; and

WHEREAS, the modifications involve a changing section numbers and placement of various provisions and allows the Health Department to add a Farmers Market permit. This permit will lower the cost of egg vendors who are selling at farmers markets. Efforts were made to personally ensure vendors were aware of the potential change and lowering of fees.

BE IT THEREFORE ORDAINED THAT the Vermilion County Health Department Food Services Sanitation Ordinance is approved and enacted effective upon passage of the same by the Vermilion County Board

PRESENTED, APPROVED AND ORDAINED by the County Board of Vermilion County, Illinois at the January 10, 2023 A.D. Session.
