

# EXHIBIT "A"

*Any trade or market name is used here for illustration purposes. The goal is to obtain body armor of the following description that best protects the wearer and allows them to perform the essential field and tactical functions required in a law enforcement environment.*

1. A minimum quantity of twenty (20) NIJ Certified Level IIIA Tactical vests with ballistic throat or Neck, Collar, Biceps, and Groin protection. Ballistic panel weight is not to exceed .96 pounds per square feet. Black nylon fabric tactical carrier with Molle compatible webbing attachment and 5 accessory Pouches. High visibility removable ID panels, front and back with white "SHERIFF" lettering. External top loading hard armor plate pocket, front and rear. Reinforced A-Frame drag handle.
2. A minimum quantity of twenty (20) Threat plates, 10X12, that when used in conjunction with level IIIA armor will stop a .308 round. Shooters cut, not to exceed 2.1 lbs. weight.
3. A minimum quantity of twenty (20) Level IIIA full cut ballistic helmets w/7 pad system and dial harness.
4. Vendor must provide on-site custom fitting of vest.

Please provide a price per item and total cost of package in bid.
