

Vermilion County LEPC Meeting October 25, 2023 at 10am in the Vermilion County Administration Building 2nd floor Council Chambers at 201 N Vermilion St in Danville, IL 61832.

EMA Director called the meeting to order at 10:05am with four members present.

Minutes from the April 26, 2023 meeting were accepted with no changes or additions.

A review of HAZMAT incidents reported since the last meeting was done. Only two HAZMAT reports had been filed with IEMA:

- July 14, 2023 the Zoning Administrator filed a complaint about ERH Enterprises dumping waste onto a vacant Catlin Township plot of land. Violation forwarded to the IEPA for review.
- September 6, 2023 a representative of Atlas Technical Consultants notified IEMA of an underground fuel leak at the Pilot Travel Center in Oakwood. Neumayer Contracting has been hired to remediate the issue.

Committee members were advised that the state had forwarded information from the Cybersecurity and Infrastructure Security Agency (CISA) of a voluntary, no-cost program called ChemLock that is available to facilities dealing with extremely hazardous chemicals. The program offers a review of security protocols and planning tips for providing adequate security for terrorism-related high interest chemicals. Director Rudd advised the committee that he had forwarded the information to the Facility Emergency Coordinators of all 35 EHS facilities within Vermilion County.

Director Rudd advised that the county's Hazardous Release Response Plan is still being reviewed by Danville FD HAZMAT Chief Jerry Sparks and has not yet been completed.

With no further business, the meeting was adjourned at 10:30am.
